INTER-COUNTY ENERGY

CLASSIFICATION OF SERVICE

Demand Side Management (DSM)

ELECTRIC THERMAL STORAGE INCENTIVE PROGRAM

(N)

Purpose

The Electric Thermal Storage ("ETS") Incentive program provides retail members with a cost-efficient means of using electricity for space heating. A discounted rate for ETS energy encourages retail members to use electricity for heating during off-peak hours. This improves the utility's load factor, reduces energy costs for the retail member, and delays the need for new peak load capacity expenses.

Availability

This program is available in all service territories served by Inter-County Energy Cooperative.

Eligibility

The ETS heater must replace one of the following primary sources of heat: 1) heat pump that is at least 10 years old; 2) baseboard heat; 3) ceiling cable heat; 4) electric furnace; 5) wood burning heat source; or 6) propane. Also eligible are ETS heaters that are being installed to heat a room addition to an existing home (e.g. finished basement).

Incentive

Inter-County Energy Cooperative will pay a \$250 incentive to the retail customer that meets the eligibility requirements.

Term

The program is an ongoing program.

AUTOMATIC METER READING (AMR) LEASE

This lease option is available to all Inter-County Energy members interested in limiting access to their property, gaining a greater understanding of their KWH usage, or enhancing outage notification for their home/building. The automatic meter reading equipment allows Inter-County Energy to receive a meter reading, check voltage or receive outage notification without direct access to the meter. Inter-County Energy will continue to require access to the meter periodically for meter and equipment inspections, in addition to safety inspections. If this option is requested, the member will be billed a lease charge of \$5.15 per month.

CLASSIFICATION OF SERVICE

RENEWABLE RESOURCE POWER SERVICE

STANDARD RIDER – This Renewable Resource Power Service is a rider to all currently applicable rate schedules. The purpose of this rider is to provide the consumer with a renewable source of energy that may be considered more environmentally friendly.

APPLICABLE

To the entire territory served.

AVAILABLE

This schedule shall be made available to any consumer in the following listed block amounts:

100kWh Block (Minimum size) or Greater

AND where the consumer will contract with the Cooperative to purchase these blocks under this Retail Rider.

AGREEMENT

An "Agreement for Purchase of Renewable Resource Power" shall be executed by the consumer prior to service under this schedule.

RATE

The monthly rate for this service will be a renewable power premium, i.e. an added charge, for all renewable power supplied to the consumer. The renewable power rate premium will be as provided below:

\$0.0275 per kWh or \$2.75 per 100 kWh Block

This rate is addition to the regular retail rate for power.

CLASSIFICATION OF SERVICE

RENEWABLE RESOURCE POWER SERVICE

(continued)

BILLING AND MINIMUM CHARGE

Blocks of power contracted for under this tariff shall constitute the minimum amount of kWh the customer will be billed for during a normal billing period. For all power purchased in excess of the contracted Renewable Resource amount, the customer shall be billed at the normal rate for that class. For periods shorter than a normal monthly billing cycle (i.e. termination of service and final bill of a service) and actual kWh use is less than the contracted Renewable kWh amount, the customer shall pay for the full monthly block of kWh ordinarily contracted for.

TERMS OF SERVICE AND PAYMENT

This rider tariff shall be subject to all other terms of service and payment of the applicable tariffs to which it is applied for each customer.

CONDITIONS OF SERVICE

The rate granted under this Retail Rider shall be supported by one (1) year contracts between the customer and the cooperative.
