

ADOPTION NOTICE

The undersigned TelCove Operations, LLC
(Name of Utility) System

of Delaware hereby adopts, ratifies, and makes its own,
in every respect as if the same had been originally filed and posted by it, all tariffs and
supplements containing rates, rules and regulations for furnishing
intrastate resold and facilities based service throughout
(Nature of Service)

the Commonwealth of Kentucky, filed with the Public Service Commission of
Kentucky by TelCove of Kentucky, Inc. of Delaware
(Name of Predecessor)

and in effect on the 20th day of December, 2006 the date on which
the public service business of the said TelCove of Kentucky, Inc.
(Name of Predecessor)

was taken over by it.

This notice is issued on the 20th day of November, 2006, in conformity with
807 KAR 5:011, Section 11, of the Regulations for the filing of Tariffs of Public Utilities
with the Public Service Commission of Kentucky.

Authorized by Ky.P.S.C. Order No. _____

TELCOVE OPERATIONS, LLC
REGULATIONS AND SCHEDULE OF INTRASTATE CHARGES
APPLYING TO END USER COMMUNICATION SERVICES
SERVICES WITHIN THE COMMONWEALTH OF KENTUCKY

This tariff applies to the End User Communication Services furnished by TelCove Operations, LLC, ("Company") between one or more points in the Commonwealth of Kentucky. This tariff is on file with the Public Service Commission of Kentucky, and copies may be inspected, during normal business hours, at the Company's principal place of business, 121 Champion Way, Canonsburg, Pennsylvania 15317 and also on the Company's web site at www.telcove.com.

Issued: November 20, 2006

Effective: December 20, 2006

By: Director of Regulatory Affairs
121 Champion Way
Canonsburg, Pennsylvania 15317

CHECK SHEET

The Pages of this tariff are effective as of the date shown. The original and revised Pages named below contain all changes from the original tariff and are in effect on the date shown.

EXPLANATION OF SYMBOLS

A revision of a Tariff Page is coded to designate the type of change from the previous revision. These symbols, which appear in the right-hand margin of the Page, are used to signify:

- C - Change in Regulation
- D - Discontinued rate or regulation
- I - Increased rate
- M - Moved from another tariff location
- N - New rate or regulation
- R - Reduction in a rate or charge
- T - Changed in text but no change in rate or regulation

EXPLANATION OF TERMS

AGENCY

For 911 or E911 service, the government agency(ies) designated as having responsibility for the control and staffing of the emergency report center.

ALTERNATE ROUTING ("AR")

Allows E911 calls to be routed to a designated alternate location if (1) all E911 exchange lines to the primary PSAP (see definition of PSAP below) are busy, or (2) the primary PSAP closes for a period (night service).

AUTHORIZED USER

A person, corporation or other entity who is authorized by the Company's customer to utilize service provided by the Company to the customer. The customer is responsible for all charges incurred by an Authorized User.

ATTENDANT

An operator of a PBX console or telephone switchboard.

AUTOMATIC LOCATION IDENTIFICATION ("ALI")

The name and address associated with the calling party's telephone number (identified by ANI as defined below) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off premises, etc.) will be identified with the address of the telephone number at the main location.

AUTOMATIC NUMBER IDENTIFICATION ("ANI")

A system whereby the calling party's telephone number is identified and sent forward with the call record for routing and billing purposes. E911 Service makes use of this system.

EXPLANATION OF TERMS (Cont'd)

CALL INITIATION

The point in time when the exchange network facility are initially allocated for the establishment of a specific call.

CALL TERMINATION

The point in time when the exchange network facility allocated to a specific call is released for reuse by the network.

CENTRAL OFFICE

An operating office of the Company where connections are made between telephone exchange lines.

CENTRAL OFFICE LINE

A line providing direct or indirect access from a telephone or switchboard to a central office. Central office lines subject to PBX rate treatment are referred to as central office trunks.

CHANNEL

A point-to-point bi-directional path for digital transmission. A channel may be furnished in such a manner as the Company may elect, whether by wire, fiber optics, radio or a combination thereof and whether or not by means of single physical facility or route. One 1.544 Mbps Service is equivalent to 24 channels.

COMMISSION

Public Service Commission of Kentucky.

COMPANY

TelCove of Kentucky, Inc. unless otherwise clearly indicated from the context.

EXPLANATION OF TERMS (Cont'd)

CUSTOMER

The person, firm, corporation, or other entity which orders service pursuant to this Tariff and utilizes service provided under Tariff by the Company. A customer is responsible for the payment of charges and for compliance with all terms of the Company's Tariff.

CUSTOMER PREMISES EQUIPMENT ("CPE")

Equipment provided by the customer for use with the Company's services. CPE can include a station set, facsimile machine, key system, PBX, or other communication system.

DEFAULT ROUTING ("DR")

When an incoming E911 call cannot be selectively routed due to an ANI failure, garbled digits or other causes, such incoming calls are routed from the E911 Control Office to a default PSAP. Each incoming E911 facility group to the Control Office is assigned to a designated default PSAP.

DIAL PULSE ("DP")

The pulse type employed by a rotary dial station set.

DIRECT INWARD DIAL ("DID")

A service attribute that routes incoming calls directly to stations, by-passing a central answer point.

DIRECT OUTWARD DIAL ("DOD")

A service attribute that allows individual station users to access and dial outside numbers directly.

DUAL TONE MULTI-FREQUENCY ("DTMF")

The pulse type employed by tone dial station sets. (Touch tone)

EXPLANATION OF TERMS (Cont'd)

E911 SERVICE AREA

The geographic area in which the government agency will respond to all E911 calls and dispatch appropriate emergency assistance.

E911 CUSTOMER

A governmental agency that is the customer of record and is responsible for all negotiations, operations and payment of bills in connection with the provision of E911 service.

EXCHANGE

An area, consisting of one or more central office districts, within which a call between any two points is a local call.

EXCHANGE ACCESS LINE

A central office line furnished for direct or indirect access to the exchange system.

EXCHANGE SERVICE

The provision to the subscriber of access to the exchange system for the purpose of sending and receiving calls. This access is achieved through the provision of a central office line (exchange access line) between the central office and the subscriber's premises.

FINAL ACCOUNT

A customer whose service has been disconnected who has outstanding charges still owed to the Company.

FLAT RATE SERVICE

The type of exchange service provided at a monthly rate with an unlimited number of calls within a specified primary calling area.

EXPLANATION OF TERMS (Cont'd)

HANDICAPPED PERSON

A person who is legally blind, visually handicapped or physically handicapped, under the following definitions from the Federal Register (Vol. 35 #126 dated June 30, 1970).

Legally Blind - a person whose visual acuity is 20/200 or less in the better eye with correcting glasses, or whose widest diameter of visual field subtends an angular distance no greater than 20 degrees.

Visually Handicapped - a person whose visual disability, with correction and regardless of optical measurement with respect to legal blindness, are certified as unable to read normal printed material.

Physically Handicapped - a person who is certified by competent authority as unable to read or use ordinary printed materials as a result of physical limitation, or a person whose disabling condition causes difficulty with hand and finger coordination and use of a coin telephone.

The term "Handicapped Person", when used in connection with a person having a speech or hearing impairment which requires that they communicate over telephone facilities by means other than voice is defined below:

Hearing - a person with binaural hearing impairment of 60% or higher on the basis of the procedure developed by the American Academy of Otolaryngology (A.A.O.) as set forth in "Guide for Conservation of Hearing in Noise" 38-43, A.A.O., 1973; "Guides to the Evaluation of Permanent Impairment" 103-107, American Medical Association, 1971.

Speech - a person with 65% or higher of impairment on the basis of the procedure recommended by the American Medical Association's Committee on Rating of Mental and Physical Impairment to evaluate speech impairment as to three categories: audibility, intelligibility and functional efficiency, as set forth in "Guides to the Evaluation of Permanent Impairment" 109-III, American Medical Association, 1971.

EXPLANATION OF TERMS (Cont'd)

INTERFACE

That point on the premises of the subscriber at which provision is made for connection of facilities provided by someone other than the Company to facilities provided by the Company.

INTERRUPTION

The inability to complete calls, either incoming or outgoing or both, due to Company facilities malfunction or human errors.

LATA

Local Access and Transport Area. The area within which the Company provides local and long distance ("intraLATA") service. For call to numbers outside the area ("interLATA") service is provided by long distance companies.

LINK

The physical facility from the network interface on an end-user's or carrier's premises to the point of interconnection on the main distribution frame of the Company's central office.

LOCAL CALL

A call which, if placed by a customer over the facilities of the Company, is not rated as a toll call.

LOCAL CALLING AREA

The area, consisting of one or more central office districts, within which a subscriber for exchange service may make telephone calls without a toll charge.

LOCAL SERVICE

Telephone exchange service within a local calling area.

EXPLANATION OF TERMS (Cont'd)

LOOP START

Describes the signaling between the terminal equipment or PBX/key system interface and the Company's switch. It is the signal requesting service.

LOOPS

Segments of a line which extend from the serving central office to the originating and to the terminating point.

MESSAGE RATE SERVICE

A type of exchange service provided at a monthly rate with an additional charge for local calling based on the usage of the local network. One completed call is equal to one message.

MOVE

The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

MULTILINE HUNT

A method of call signaling by which a call placed to one number is subsequently routed to one or more alternative numbers when the called number is busy.

ON-NET

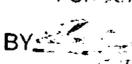

Telecommunications services which are transported exclusively over facilities installed by the Company rather than the facilities of another carrier.

PORT

A connection to the switching network with one or more voice grade communications channels, each with a unique network address (telephone number) dedicated to the customer. A port connects a link to the public switched network.

PRIVATE BRANCH EXCHANGE SERVICE

Service providing facilities for connecting central office trunks and tie lines to PBX stations, and for interconnecting PBX station lines by means of a switchboard or dial apparatus.

RATE CENTER

A geographic reference point with specific coordinates on a map used for determining mileage when calculating charges.

REFERRAL PERIOD

The time frame during which calls to a number which has been changed will be sent to a recording which will inform the caller of the new number.

SELECTIVE ROUTING ("SR")

A feature that routes an E911 call from a Central Office to the designated primary PSAP based upon the identified number of the calling party.

TOLL CALL

Any call extending beyond the local exchange of the originating caller which is rated on a toll schedule by the Company.

Section 1 - APPLICATION OF TARIFF

1.1 Application of Tariff

This Tariff sets forth the service offerings, rates, terms and conditions applicable to switched services provided by TelCove of Kentucky, Inc., as follows:

The furnishing of interexchange intrastate end-user communications services to customers within the Commonwealth of Kentucky.

1.1.1 Service Territory

TelCove of Kentucky, Inc. will provide service within the Commonwealth of Kentucky.

1.1.2 Availability

Service is available where facilities permit.

Only those services for which rates are provided are currently available.

Any service purchased under this Tariff, whether purchased individually or in combination with other services, is subject to a minimum monthly commitment of \$250.00.

121 Champion Way
Canonsburg, Pennsylvania 15317

Section 2 - GENERAL RULES AND REGULATIONS

2.1 USE OF FACILITIES AND SERVICE

2.1.1 Obligation of the Company

In furnishing facilities and service, the Company does not undertake to transmit messages, but furnishes the use of its facilities to its customers for communications. The Company undertakes to furnish communications service pursuant to the terms of this tariff in connection with one-way and/or two-way information transmission between points within the Commonwealth of Kentucky.

- a. The Company reserves the right to limit or to allocate the use of existing facilities, or of additional facilities offered by the Company, when necessary because of lack of facilities, or due to some other cause beyond the Company's control.
- b. The furnishing of service under this tariff is subject to the availability on a continuing basis of all the necessary facilities and is limited to the capacity of the Company's facilities as well as facilities the Company may obtain from other carriers to furnish service from time to time as required at the sole discretion of the Company.

The Company's obligation to furnish facilities and service is dependent upon its ability (a) to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment; (b) to secure and retain, without unreasonable expense, suitable space for its plant and facilities in the building where service is or will be provided to the customer; or (c) to secure reimbursement of all costs where the owner or operator of a building demands relocation or rearrangement of plant and facilities used in providing service therein.

The Company shall not be required to furnish, or continue to furnish, facilities or service where the circumstances are such that the proposed use of the facilities or service would tend to adversely affect the Company's plant, property or service.

The Company reserves the right to refuse an application for service made by a present or former customer who is indebted to the Company for service previously rendered pursuant to this Tariff until the indebtedness is satisfied.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.1 USE OF FACILITIES AND SERVICE (Cont'd)

2.1.2 Limitations on Liability

2.1.2.1 The liability of the Company for damages arising out of the furnishing of its services, including but not limited to mistakes, omissions, interruptions, delays, or errors, or other defects, representations, or use of these services or arising out of the failure to furnish the service, whether caused by acts or omission, shall be limited to the extension of allowances for interruption as set forth in this tariff. The extension of such allowances for interruption shall be the sole remedy of the Customer and the sole liability of the Company. The Company will not be liable for any direct, indirect, incidental, special, consequential, exemplary or punitive damages to Customer as a result of any Company service, equipment or facilities, or the acts or omissions or negligence of the Company's employees or agents.

2.1.2.2 The Company shall not be liable for any delay or failure of performance or equipment due to causes beyond its control, including but not limited to: acts of God, fire, flood, explosion or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or of any other government, including state and local governments having or claiming jurisdiction over the Company, or of any department, agency, commission, bureau, corporation, or other instrumentality of any one or more of these federal, state, or local governments, or of any civil or military authority; national emergencies; insurrections; riots; wars; unavailability of rights-of-way or materials; or strikes, lock-outs, work stoppages, or other labor difficulties.

2.1.2.3 The Company shall not be liable for any act or omission of any entity furnishing to the Company or to the Company's Customers facilities or equipment used for or with the services the Company offers.

2.1.2.4 The Company shall not be liable for any damages or losses due to the fault or negligence of the Customer or due to the failure or malfunction of Customer-provided equipment or facilities.

2.1 USE OF FACILITIES AND SERVICE (Cont'd)

2.1.2 Limitations on Liability (Cont'd)

2.1.2.5 The Company does not guarantee nor make any warranty with respect to installations it provides for use in an explosive atmosphere. The Customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, whether suffered, made, instituted, or asserted by any other party or person(s), and for any loss, damage, or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal presence, condition, location, or use of any installation so provided. The Company reserves the right to require each Customer to sign an agreement acknowledging acceptance of the provisions of this section as a condition precedent to such installations.

2.1.2.6 The Company is not liable for any defacement of or damage to Customer premises resulting from the furnishing of services or equipment on such premises or the installation or removal thereof, unless such defacement or damage is caused by negligence or willful misconduct of the Company's agents or employees.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.1 USE OF FACILITIES AND SERVICE (Cont'd)

2.1.3 Use of Service

Any service provided under this Tariff may be resold to or shared (jointly used) with other persons at the customer's option. The customer remains solely responsible for all use of service ordered by it or billed to its telephone number(s) pursuant to this Tariff, for determining who is authorized to use its service, and for promptly notifying the Company of any unauthorized use. The customer may advise its customers that a portion of its service is provided by the Company, but the customer shall not represent that the Company jointly participates with the customer in the provision of the service.

2.1.4 Use and Ownership of Equipment

The Company's equipment, apparatus, channels and lines shall be carefully used. Equipment furnished by the Company shall remain its property and shall be returned to the Company whenever requested, within a reasonable period following the request, in good condition, reasonable wear and tear accepted. The customer is required to reimburse the Company for any loss of, or damage to, the facilities or equipment on the customer's premises, including loss or damage caused by agents, employees or independent contractors of the customer through any negligence.

2.1.5 Directory Errors

In the absence of gross negligence or willful misconduct and except for the allowances stated below, no liability for damages arising from errors or mistakes in or omissions of directory listings, or errors or mistakes in or omissions of listings obtainable from the directory assistance operator, including errors in the reporting thereof, shall attach to the Company.

121 Champion Way
Canonsburg, Pennsylvania 15317

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.1 USE OF FACILITIES AND SERVICE (Cont'd)

2.1.5 Directory Errors (Cont'd)

An allowance for errors or mistakes in or omissions of published directory listings or for errors or mistakes in or omissions of listings obtainable from the directory assistance operator shall be given as follows:

1. Free Listings: For free or no-charge published directory listings, credit shall be given at the rate of two times the monthly tariff rate for an additional or charge listing for each individual, auxiliary or party line, PBX trunk or Centrex-type attendant loop affected, for the life of the directory or the charge period during which the error, mistake or omission occurs.
2. Charge Listings: For additional or charge published directory listings, credit shall be given at the monthly tariff rate for each such listing for the life of the directory or the charge period during which the error, mistake or omission occurs.
3. Operator records: For free or charge listings obtainable from records used by the directory assistance operator, upon notification to the Company of the error, mistake or omission in such records by the subscriber, the Company shall be allowed a period of three business days to make a correction. If the correction is not made in that time, credit shall be given at the rate of 2/30ths of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected. (Where Centrex-type attendant loops are involved, credit shall be given at the rate of 2/30ths of the basic monthly rate for PBX trunks.)
4. Credit limitation: The total amount of the credit provided for the preceding paragraphs 1, 2, and 3 shall not exceed, on a monthly basis, the total of the charges for each charge listing plus the basic monthly rate, as specified in paragraph 3, for the line or lines in question.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.1 USE OF FACILITIES AND SERVICE (Cont'd)

2.1.5 Directory Errors (Cont'd)

5. Definitions: As used in Paragraphs 1, 2, 3, and 4 above, the terms "error," "mistake" or "omission" shall refer to a discrepancy in the directory listing or directory assistance records which the Company has failed to correct and where the error affects the ability to locate a particular subscriber's correct telephone number. The terms shall refer to addresses only to the extent that an error, mistake or omission of an address places the subscriber on an incorrect street or in an incorrect community.
6. Notice: Such allowances or credits as specified in Paragraphs 1, 2, and 3 above, shall be given upon notice to the Company by the subscriber that such error, mistake or omission has occurred; provided, however, that when it is administratively feasible for the Company to have knowledge of such error, mistake or omission, the Company shall give credit without the requirement of notification by the subscribers.

2.1.6 Blocking of Service

The Company's facilities can not be used to originate calls to other telephone company or Information Provider caller-paid information services.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.2 MINIMUM PERIOD OF SERVICE

The minimum period of service is one month except as otherwise provided in this Tariff. The customer must pay the regular tariffed rate for the service they subscribe to for the minimum period of service. If a customer disconnects service before the end of the minimum service period, that customer is responsible for paying the regular rates for the remainder of the minimum service period. When the service is moved within the same building, to another building on the same premises, or to a different premises entirely, the period of service at each location is accumulated to calculate if the customer has met the minimum period of service obligation.

If service is terminated before the end of the minimum period of service as a result of condemnation of property, damage to property requiring the premises to be abandoned, or by the death of the customer, the customer is not obligated to pay for service for the remainder of the minimum period.

If service is switched over to a new customer at the same premises after the first month's service, the minimum period of service requirements are assigned to the new customer if the new customer agrees in writing to accept them. For facilities not taken over by the new customer, the original customer is responsible for the remaining payment for the minimum service period in accordance with the terms under which the service was originally furnished.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.3 PAYMENT FOR SERVICES RENDERED

2.3.1 Responsibility for All Charges

Any applicant for facilities or service may be required to sign an application form requesting the Company to furnish the facilities or service in accordance with the rates, charges, rules and regulations from time to time in force and effect. The customer is responsible for all local and toll calls originating from the customer's premises and for all calls charged to the customer's line where any person answering the customer's line agrees to accept such charge.

2.3.2 Deposits

Subject to special provisions as may be set forth below and in Sections 2.10 and 2.11 of this Tariff, any applicant or customer whose financial responsibility is not established to the satisfaction of the Company may be required to deposit a sum up to an amount equal to the total of the estimated local service and intraLATA toll charges for up to two months for the facilities and service. If the minimum period of service for the requested facilities and service is more than one month, as specified in this Tariff, the customer may also be required to deposit a sum up to an amount equal to the total charges for service for the minimum service period less any connection charge paid by the customer.

The fact that a deposit has been made shall in no way relieve the applicant or customer from complying with the Tariff regulations for the prompt payment of bills on presentation. Each applicant from whom a deposit is collected will be given a certificate of deposit and circular containing the terms and conditions applicable to deposits, in accordance with the Rules and Regulations of the Commission pertaining to customer deposits.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.3 PAYMENT FOR SERVICES RENDERED (Cont'd)

2.3.2 Deposits (Cont'd)

a. Interest on Deposits

Simple interest at the rate specified by the Commission shall be credited or paid to the customer while the Company holds the deposit.

b. Inadequate Deposit

If the amount of a deposit is proven to be less than required to meet the requirements specified above, the customer shall be required to pay an additional deposit upon request.

c. Return of Deposit

When a deposit is to be returned, the customer may request that the full amount of the deposit be issued by check. If the customer requests that the full amount be credited to amounts owed the Company, the Company will process the transaction on the billing date and apply the deposit to any amount currently owed to the Company, and return any remaining amount of the deposit to the customer by check.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.3 PAYMENT FOR SERVICES RENDERED (Cont'd)

2.3.3 Payment of Charges

Charges for facilities and service, other than usage charges, are due monthly in advance. All other charges are payable upon request of the Company. Bills are due on the due date shown on the bill and are payable at any business office of the Company, by U.S. Mail, or at any location designated by the Company. If objection is not received by the Company within three months after the bill is rendered, the items and charges appearing thereon shall be determined to be correct and binding upon the customer. A bill will not be deemed correct and binding upon the customer if the Company has records on the basis of which an objection may be considered, or if the customer has in his or her possession such Company records. If objection results in a refund to the customer, such refund will be with interest at the greater of the unadjusted customer deposit rate or the applicable late payment rate, if any, for the service classification under which the customer was billed. Interest will be paid from the date when the customer overpayment was made, adjusted for any changes in the deposit rate or late payment rate, compounded monthly, until the overpayment is refunded. Notwithstanding the foregoing, no interest will be paid by the Company on customer overpayments that are refunded within 30 days after the overpayment is received by the Company.

Where an objection to the bill involves a superseded service order, the items and charges appearing on the bill shall be deemed to be correct and binding upon the customer if objection is not received by the Company within two months after the bill is rendered.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.3 PAYMENT FOR SERVICES RENDERED (Cont'd)

2.3.4 Return Check Charge

When a check which has been presented to the Company by a customer in payment for charges is returned by the bank, the customer shall be responsible for the payment of a Returned Check Charge of \$10.00.

2.3.5 Late Payment Charges

- a. Customer bills for telephone service are due on the due date specified on the bill. A customer is in default unless payment is made on or before the due date specified on the bill. If payment is not received by the customer's next billing date, a late payment charge of 1.5% will be applied to all amounts previously billed under this Tariff, excluding one month's local service charge, but including arrears and unpaid late payment charges.
- b. Late payment charges do not apply to those portions (and only those portions) of unpaid balances that are associated with disputed amounts. Undisputed amounts on the same bill are subject to late payment charges if unpaid and carried forward to the next bill.
- c. Late payment charges do not apply to final accounts.
- d. Late payment charges do not apply to government agencies of the Commonwealth of Kentucky. These agencies are required to make payment in accordance with applicable state law.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.3 PAYMENT FOR SERVICES RENDERED (Cont'd)

2.3.6 Customer Overpayments

The Company will provide interest on customer overpayments that are not refunded within 30 days of the date the Company receives the overpayment. An overpayment is considered to have occurred when payment in excess of the correct charges for service is made because of erroneous Company billing. The customer will be issued reimbursement for the overpayment, plus interest, or, if agreed to by the customer, credit for the amount will be provided on the next regular Company bill. The rate of interest shall be the greater of the customer deposit interest rate or the Company's applicable Late Payment Charge.

Interest shall be paid from the date when overpayment was made, adjusted for any changes in the deposit rate or late payment rate, and compounded monthly, until the date when the overpayment is refunded. The date when overpayment is considered to have been made will be the date on which the customer's overpayment was originally recorded to the customer's account by the Company; provided, however, that the Company will only provide credit or payment for up to 90 days of over billed amounts.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.5 ACCESS TO CUSTOMER'S PREMISES

The customer shall be responsible for making arrangements or obtaining permission for safe and reasonable access for Company employees or agents of the Company to enter the premises of the customer or any joint user or customer of the customer at any reasonable hour for the purpose of inspecting, repairing, testing or removing any part of the Company's facilities.

2.6 TELEPHONE SURCHARGES/TAXES

2.6.1 General

In addition to the rates and charges applicable according to the rules and regulations of this Tariff, various surcharges and taxes may apply to the customer's monthly billing statement: Federal Access or End User Common Line (EUCL), for Single Line Business, Multi-Line Business, Basic Rate Interface (BRI); Local Number Portability (LNP); Primary Interexchange Carrier Charge (PICC); Universal Service Fund (USF); Telecommunications Relay Service (TRS); and 911 surcharges will also be charged as applicable. The Customer is responsible for payment of any fees (including franchise and right-of-way fees), charges, surcharges and taxes (however designated) (including without limitation sales, use, gross receipts, excise, access or other taxes but excluding taxes on the Company's net income) imposed by any local, state, or federal government on or based upon the provision, sale or use of Network Services. Fees, charges, and taxes imposed by a city, county, or other political subdivision will be collected only from those Customers receiving service within the boundaries of that subdivision.

Payphone Use Charge – In addition to all other charges for services under this tariff, a non-discountable payphone use charge of \$0.55 shall apply to each coinless call which TelCove can identify as placed from a domestic payphone by or to the Customer or its permitted users. This charge is for the use of the payphone instrument to access TelCove services, including local, calling card, toll-free switched and dedicated services, collect, third party assisted and any 10-10-XXX-0-plus dial around service traffic.

2.8 SUSPENSION OR TERMINATION OF SERVICE

2.8.1 Suspension or Termination for Nonpayment

In the event that any bill rendered or any deposit required is not paid, the Company may suspend service or terminate service until the bill or the required deposit has been paid. If service is suspended or terminated for nonpayment, the customer will be billed a Connection Charge as well as any payment due and any applicable deposits upon reconnection.

- a. Termination shall not be made until at least 20 days after written notification has been mailed to the billing address of the customer.
- b. Suspension will not be made until at least 8 days after written notification has been mailed to the customer.

Telephone service shall only be suspended during the hours between 8:00 AM and 4:00 PM, Monday through Thursday. It shall not be suspended or terminated for nonpayment on weekends, public holidays, other federal and state holidays proclaimed by the President or the Governor, or on days when the main business office of the Company is not open for business, or during the periods from December 23rd through December 26th or December 30th through January 1st.

2.8 SUSPENSION OR TERMINATION OF SERVICE (Cont'd)

2.8.2 Exceptions to Suspension and Termination

Telephone service shall not be suspended or terminated for:

- a. Nonpayment of bills rendered for charges other than telephone service or deposits requested in connection with telephone service;
- b. Nonpayment for service for which a bill has not been rendered;
- c. Nonpayment of any billed charge which is in dispute or for the nonpayment of a deposit which is in dispute during the period before a determination of the dispute is made by the Company in accordance with Company's complaint handling procedures. These procedures shall be in accordance with the Commission's Rules and Regulations.

Telephone service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the customer does not pay the undisputed portion after being asked to do so.

- d. Nonpayment of back-billed amounts as outlined in 2.11.12.

2.8.4 Termination For Cause Other Than Nonpayment

a. General

The Company, after notice in writing to the customer and after having given the customer an appropriate opportunity to respond to such notice, may terminate service and sever the connection(s) from the customer's premises under the following conditions:

1. in the event of prohibited, unlawful or improper use of the facilities or service, or any other violation by the customer of the rules and regulations governing the facilities and service furnished, or
2. if, in the judgment of the Company, any use of the facilities or service by the customer may adversely affect the Company's personnel, plant, property or service. The Company shall have the right to take immediate action, including termination of the service and severing of the connection, without notice to the customer when injury or damage to telephone personnel, plant, property or service is occurring, or is likely to occur, or
3. in the event of unauthorized use, where the customer fails to take reasonable steps to prevent the unauthorized use of the facilities or service received from the Company, or
4. in the event that service is connected for a customer who is indebted to the Company for service or facilities previously furnished, that service may be terminated by the Company unless the customer satisfies the indebtedness within 20 days after written notification. b. Prohibited, Unlawful or Improper Use of the Facilities or Service

Prohibited, unlawful or improper use of the facilities or service includes, but is not limited to:

1. The use of facilities or service of the Company without payment of tariff charges;
2. Calling or permitting others to call another person or persons so frequently or at such times of the day or in such manner as to harass, frighten, abuse or torment such other person or persons;
3. The use of profane or obscene language;
4. The use of the service in such a manner such that it interferes with the service of other customers or prevents them from making or receiving calls;
5. The use of a mechanical dialing device or recorded announcement equipment to seize a customer's line, thereby interfering with the customer's use of the service;
6. Permitting fraudulent use.

2.9.1 Application of Rates

- a. Business rates as described in this Tariff apply to service furnished:
 - 1. In office buildings, stores, factories and all other places of a business nature;
 - 2. In hotels, apartment houses, clubs and boarding and rooming houses except when service is within the customer's domestic establishment and no business listings are provided; colleges, hospitals and other institutions; and in churches except when service is provided to an individual of the clergy for personal use only and business service is already established for the church at the same location;
 - 3. At any location when the listing or public advertising indicates a business or a profession;
 - 4. At any location where the service includes an extension which is at a location where business rates apply unless the extension is restricted to incoming calls;
 - 5. At any location where the customer resells or shares exchange service;
- b. Public Access Line service is classified as business service regardless of the location.
- c. The use of business facilities and service is restricted to the customer, customers, agents and representatives of the customer, and joint users.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.9 ADDITIONAL PROVISIONS APPLICABLE TO BUSINESS CUSTOMERS (Cont'd)

2.9.2 Telephone Number Changes

When a business customer requests a telephone number change, the referral period for the disconnected number is 90 days.

The Company reserves all rights to the telephone numbers assigned to any customer. The customer may order a Customized Number where facilities permit for an additional charge as specified in Section 13 of this Tariff.

When service in an existing location is continued for a new customer, the existing telephone number may be retained by the new customer only if the former customer consents in writing, and if all charges against the account are paid or assumed by the new customer.

2.9.3 Deposits

Deposits will be returned to a business customer upon cancellation of service or after one year, whichever event occurs first, unless the customer is delinquent in payment, in which case the Company will continue to retain the deposit until the delinquency is satisfied. If a service is involuntarily discontinued, the deposit is applied against the final bill, and any balance is returned to the customer.

2.9.4 Dishonored Checks

If a business customer who has received a notice of discontinuance pays the bill with a check that is subsequently dishonored, the account remains unpaid and the Company is not required to issue any additional notice before disconnecting service.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS

2.10.1 Application of Rates

Residential rates as described in this Tariff apply to service furnished in private homes or apartments (including all parts of the customer's domestic establishment) for domestic use. Residential rates also apply in college fraternity or sorority houses, convents and monasteries, and to the clergy for domestic use in residential quarters.

Residential rates do not apply to service in residential locations if the listing indicates a business or profession. Residential rates do not apply to service furnished in residential locations if there is an extension line from the residential location to a business location unless the extension line is limited to incoming calls.

The use of residential service and facilities is restricted to the customer, members of the customer's domestic establishment, and joint users.

2.10.2 Telephone Number Changes

When a residential customer requests a telephone number change, the referral period for the disconnected number is 90 days.

The Company reserves all rights to any telephone number assigned to a customer for local service. The customer may order a Customized Number where facilities permit for an additional charge as specified in Section 13 of this Tariff.

When service in an existing location is continued for a new customer, the existing number may be retained by the new customer only if the former customer consents in writing, and if all charges against the account are paid or assumed by the new customer.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.3 Deposits

a. General

Except as provided in (b) following, the Company may require a deposit, as described in Section 2.3.2 of this Tariff, from a residential customer who is applying for service if the customer: 1) has had service terminated for nonpayment once within the preceding six-month period, or 2) is delinquent in payment. A customer is delinquent in payment if that customer has received two consecutive telephone bills without making payment of at least one-half the total arrears due on the due date of the second bill. A customer is not considered delinquent, however, if an amount in dispute is not paid before the dispute is resolved.

An existing customer is an applicant for service who was a customer of the Company within twelve months of making the request, provided that prior service was not terminated for nonpayment, unless service is requested within 10 days of such termination for nonpayment. Applicants for residential service and existing residential customers are permitted to pay deposits in installments over a period not to exceed 6 months.

A new customer is an applicant for service who has not been a customer of the Company within twelve months of making the request for service. A new customer shall not be required to post a security deposit as a condition of receiving telephone service.

A seasonal customer is an individual who applies for and receives telephone service periodically each year, intermittently during the year or at other regular intervals scheduled at the time of application. A seasonal customer may be required to post a deposit.

b. Customers Exempt from Deposits

1. A new customer or existing customer who is 62 years of age or older shall be exempt from any deposit requirement unless such person's telephone service was terminated for nonpayment during the preceding six months. Proof of age will be required from any person claiming exemption from deposit requirements because of age. If the proof requested by the Company is not received within 30 days from the date service is connected, or 30 days from the date that verification of age is requested from an existing customer, the Company may suspend or terminate service unless the customer pays the required deposit. Any new customer or existing customer 62 years of age or older shall be permitted to pay a deposit in installments over a period not to exceed 12 months.
2. The Company shall not require any person it knows to be a recipient of public assistance, supplemental security income or additional state payments to post a deposit.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.3 Deposits (Cont'd)

c. Recent Payment History

A customer who has a recent payment history (within the preceding twelve months) with the Company is entitled to service without payment of a deposit unless their records indicate that they are delinquent in payment or have had service terminated for nonpayment. A customer who still owes money to the Company for residential service on a prior account shall be offered a deferred payment plan provided that the customer had service for three months and was not terminated for nonpayment during that period. (See Deferred Payment Agreements, 2.10.7 below.)

New deposits from a residential customer are reviewed after the first 3 monthly bills have been rendered; if too much has been taken, the excess is returned. The entire deposit is returned to a residential customer after 1 year, unless the customer is delinquent in payment, in which case the Company may continue to retain the deposit until the delinquency is satisfied. If the service is discontinued, the deposit is applied against the final bill, and any balance is returned to the customer.

2.10.4 Installment Billing For Nonrecurring Charges

A residential customer may elect to pay service connection and other nonrecurring charges associated with a service order in monthly installments for up to a 12-month period. When installment billing is requested, all nonrecurring charges associated with a given service order will be included in the calculation of the monthly installment.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.4 Installment Billing For Nonrecurring Charges (Cont'd)

Installment billing is subject to the following restrictions:

- a. Installment billing may be used only by residential customers;
- b. Charges will be billed in the number of installments of equal dollar amounts as requested by the customer up to a maximum of 12 installments over the course of 12 months;
- c. A customer may not pay a portion of the charges and then request installment billing for the remaining charges;
- d. More than one installment plan may be in effect for the same customer at the same time;
- e. If a customer disconnects service during the installment payment period, all unbilled charges will be included in the final bill rendered;
- f. A customer may elect to pay the unbilled charges before the expiration of the installment plan;
- g. Installment billing payments will continue even when an account is temporarily suspended;
- h. No interest or carrying charges will be applied to the outstanding balance during the installment period.

2.10.5 Adjusted Payment Schedule

A customer on a fixed income (e.g., pension and public assistance) shall be offered the opportunity to pay his or her bills on a reasonable schedule that is adjusted for periodic receipt of income.

Canonsburg, Pennsylvania 15317

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.6 Suspension or Termination for Nonpayment

- a. Suspension/termination notices may not be issued until at least 25 days after the date of the bill. Bills must be mailed to the customer no later than 6 business days after the date of the bill.
- b. After issuing the written notification in accordance with the terms of this Tariff, at least one attempt shall be made during non-working hours to contact the residential customer by telephone before the scheduled date of suspension/termination.
- c. Suspension/termination may occur only between the hours of 8 a.m. and 4 p.m. Monday through Thursday, provided that such day or the following day is not a public holiday or a day on which the main office is closed. In addition, service may not be disconnected during the periods of December 23 through the 26 and December 30 through January 2.
- d. Telephone service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the customer does not pay the undisputed portion after being asked to do so. Suspended or terminated residential service shall be reconnected within 24 hours following payment or within 24 hours of the end of circumstances beyond the Company's control which delay the reconnection. The Commission may direct that service be reconnected in less than 24 hours.

2.10.7 Deferred Payment Agreements

Service will not be suspended or terminated unless the customer has been advised that a deferred payment plan can be arranged. An existing residential customer with three or more months service and for whom service has not been terminated for nonpayment is eligible for Deferred Payment Arrangements (DPA). Final notice of suspension/termination will advise the customer of deferred payment arrangements and will include, in bold print, a notice that assistance in reaching an agreement may be obtained from the Commission. The DPA notice will be mailed no less than six days before termination of total service.

Canonsburg, Pennsylvania 15317

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.7 Deferred Payment Agreements (Cont'd)

A Deferred Payment Agreement will be for a period agreed to by both the customer and the Company.

If the Company believes that the customer has the resources to pay the bill, it shall notify both the customer and the Commission in writing of the reasons for its belief. The Commission shall make the final determination as to whether a DPA should be provided. A customer with medical emergencies and a customer who is elderly, blind or disabled shall be exempt from such eligibility criteria.

2.10.8 Dishonored Checks

When a check received from a residential customer is dishonored, the company shall make two attempts, one outside of normal business hours, to contact the customer within 24 hours. The customer shall be given an additional 24 hours to pay before suspension/termination. The additional notice will be given provided that the customer has not submitted a dishonored check within the past 12 months.

2.10.9 Suspension or Termination - Abandonment

Suspension/termination of residential service for abandonment or unauthorized use may occur only after the Company makes a reasonable attempt to determine occupancy or authorized use, or the customer takes reasonable steps to prevent unauthorized use. A notice must be sent to the customer five days before such suspension or termination. The notification requirement is waived when previous mailings are returned by the Post Office or the company is advised that a new customer has moved into the location.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.10 Suspension or Termination - Medical Emergencies

In the event of a medical emergency, an additional 30 days will be allowed for a residential customer before suspension or termination. A medical certificate must be supplied. The medical emergency status may be extended beyond 30 days upon submission of specified documentation. During the emergency, the customer will be able to defer payment of monthly charges up to an amount specified by the Commission until the emergency ceases or it is determined that the customer has the ability to pay the charges. Charges in any month in excess of the amount specified are due by the due date of the bill.

2.10.11 Suspension or Termination - Elderly, Blind or Disabled

An additional 20 days will be allowed before suspension or termination may occur when:

- a. the customer is known to or identified to the Company as being blind or disabled;
- b. the customer is 62 years of age or older, and all other residents of the customer's household are: under 18 years of age, over 62 years of age, blind or disabled.

In cases where service has been suspended or terminated and the Company subsequently learns that the customer is entitled to the protection established herein, the Company shall within 24 hours of such notification restore service for an additional 20 days and make a diligent effort to contact in person an adult resident at the customer's premises for the purpose of devising a payment plan.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.10 ADDITIONAL PROVISIONS APPLICABLE TO RESIDENTIAL CUSTOMERS (Cont'd)

2.10.12 Backbilling for Residential Customers

The Company shall not charge a residential customer for previously unbilled service or adjust upward a bill previously rendered when the period for the unbilled service or billing adjustment is more than twenty-four months prior to the mailing of the bill or the upward adjustment unless the conduct of the customer caused or contributed to the failure of the Company to render timely accurate billing. Unless the customer causes the late billing, the Company shall explain the reason for the late billing and shall advise the customer that suspension/termination of service is not permitted for charges billed in excess of six months after the service was provided. The customer will be given the opportunity to pay the charges under an installment plan on a schedule equal in time to the length of the backbilling period.

2.11 ALLOWANCES FOR INTERRUPTIONS IN SERVICE

Interruptions in service, which are not due to the negligence of, or non-compliance with the provisions of this Tariff by the Customer, or the operation or malfunction of the facilities, power, or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this Tariff.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.11 ALLOWANCES FOR INTERRUPTIONS IN SERVICE (Cont'd)

2.11.1 Credit for Interruptions

- a. An interruption period begins when the Customer reports a service, facility, or circuit to be interrupted and releases it for testing and repair. An interruption period ends when the service, facility, or circuit is operative. If the Customer reports a service, facility, or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.
- b. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the rates specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit.
- c. A credit allowance will be given, upon request of the customer to the business office, for interruptions of 30 minutes or more. Credit allowances will be calculated as follows:
 - i. If interruption continues for less than 24 hours:
 - a. 1/30th of the monthly rate if it is the first interruption in the same billing period.
 - b. 2/30ths of the monthly rate if there was a previous interruption of at least 24 hours in the same billing period.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.11 ALLOWANCES FOR INTERRUPTIONS IN SERVICE (Cont'd)

2.11.1 Credit for Interruptions (Cont'd)

- ii. if interruption continues for more than 24 hours:
 - a) if caused by storm, fire, flood or other condition out of Company's control, 1/30th of the monthly rate for each 24 hours of interruption.
 - b) for other interruption, 1/30 of the monthly rate for the first 24 hours and 2/30ths of such rate for each additional 24 hours (or fraction thereof); however, if service is interrupted for over 24 hours, more than once in the same billing period, the 2/30ths allowance applies to the first 24 hours of the second and subsequent interruptions

Two or more interruptions of 15 minutes or more during any one 24-hour period shall be considered as one interruption.

d. Credit to Customer

Credits attributable to any billing period for interruptions of service shall not exceed the total charges for that period for the service and facilities furnished by the Company rendered useless or substantially impaired.

Section 2 - GENERAL RULES AND REGULATIONS (Cont'd)

2.11 ALLOWANCES FOR INTERRUPTIONS IN SERVICE (Cont'd)

2.11.1 Credit for Interruptions (Cont'd)

e. "Interruption" Defined

For the purpose of applying this provision, the word "interruption" shall mean the inability to complete calls either incoming or outgoing or both due to equipment malfunction or human errors. "Interruption" does not include and no allowance shall be given for service difficulties such as slow dial tone, circuits busy or other network and/or switching capacity shortages. Nor shall the interruption allowance apply where service is interrupted by the negligence or willful act of the subscriber or where the Company, pursuant to the terms of the Tariff, suspends or terminates service because of nonpayment of bills due to the company, unlawful or improper use of the facilities or service, or any other reason covered by the Tariff. No allowance shall be made for interruptions due to electric power failure where, by the provisions of this Tariff, the subscriber is responsible for providing electric power. Allowance for interruptions of measured rate service will not affect the subscriber's local call allowance during a given billing period.

2.12 AUTOMATIC NUMBER IDENTIFICATION

2.12.1 Regulations

The Company will provide Automatic Number Identification (ANI) associated with an intrastate service, by tariff, to any entity (ANI recipient), only under the following terms and conditions:

- a. The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction.
- b. The ANI recipient may offer to any telephone subscriber with whom the ANI recipient has an established customer relationship, a product or service that is directly related to products or service previously purchased by the telephone subscriber from the ANI recipient.
- c. The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or to conduct outgoing marketing calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.
- d. The ANI recipient or its designated billing agent is prohibited from reselling, or otherwise disclosing ANI information to any other third party for any use other than those listed in Provision 1, unless the ANI recipient obtains the prior written consent of the subscriber permitting such resale or disclosure.

Section 3 - CONNECTION CHARGES

3.1 CONNECTION CHARGE

3.1.1 General

The Connection Charge is a nonrecurring charge which applies to the following: (a) the installation of a new service; (b) the transfer of an existing service to a different location; (c) a change from one class of service to another at the same or a different location; or (d) restoral of service after suspension or termination for nonpayment. Connection Charges are listed with each service to which they apply.

The connection Charge is comprised of two charges:

- a. Service Order;
- b. Premises Visit

Both charges may not be applicable in all cases.

The general application of these charges is as follows:

- a. A Service Order charge applies per customer order for all work or service ordered to be provided at one time, on the same premises, for the same customer. The charge recovers the cost of receiving, recording, and processing a customer's request for service.
- b. A Premises Visit charge applies per customer order when the company must dispatch an employee to complete a customer-requested installation or service charge. Only one charge applies per customer order.

Canonsburg, Pennsylvania 15317

Section 3 - CONNECTION CHARGES (Cont'd)

3.1 CONNECTION CHARGE (Cont'd)

3.1.2 Exceptions to the Charge

- a. No charge applies for a change to a service for which a lower monthly rate applies, made within 90 days after any general rate increase, if a lower grade of service is offered in the customer's exchange.
- b. No charge applies for one change in the class of residence service, provided that the change is ordered within 90 days of the initial connection of the customer's exchange service.
- c. The Company may from time to time waive or reduce the charge as part of a promotion. See Section 5.4.

3.2 RESTORAL CHARGE

A restoral charge applies each time a service is reconnected after suspension or termination for nonpayment but before cancellation of the service, as deemed in Section 1 of this Tariff.

Section 3 - CONNECTION CHARGES (Cont'd)

3.3 MOVES, ADDS AND CHANGES

The Company alone may make changes in the location of its lines and equipment. When it is found that a move or change of such lines or equipment has been made by others, the Connection Charge for the underlying service will apply as if the work had been done by the Company.

The customer will be assessed a charge for any move, add or change of a Company service. Move, Add and Change are defined as follows:

Move: The disconnection of existing equipment at one location and reconnection of the same equipment at a new location in the same building or in a different building on the same premises.

Add: The addition of a vertical service to existing equipment and/or service at one location.

Change: Change - including rearrangement or reclassification - of existing service at the same location.

3.4 RECORD ORDER CHARGE

A Record Order Charge applies for work performed by the Company in connection with receiving, recording, and processing customer requests for the following.

- a. addition of directory listings
- b. change in listed name
- c. change of address
- d. change of billing party
- e. change in listed service to non-published service, not involving a change of telephone number.

A Record Order Charge does not apply when a Service Order charge also applies.

3.5 CHARGES ASSOCIATED WITH PREMISES VISIT

3.5.1 Terms and Conditions

The customer may request an estimate or a firm bid before ordering wire installation work to be done. When an estimate is provided, the estimate is not binding on the Company and the charge to be billed will be based on the actual time and materials charges incurred. When a firm bid is provided at customer request, the charge to be billed is the amount quoted to the customer for the work requested.

Section 3 - CONNECTION CHARGES (Cont'd)

3.5 CHARGES ASSOCIATED WITH PREMISES VISIT (Cont'd)

3.5.1 Terms and Conditions (Cont'd)

Inside Wire charges apply per service call when billable premises work is performed on noncomplex premises wire and jacks. Residence and Business charges may differ. Such charges are due and payable when billed.

Noncomplex wire, jacks and materials include:

- 2 to 6 pair inside wire
- Faceplates
- RJ11C, RJ14C, RJ11W and RJ14W type station jacks
- Staples, screws, nail, tape, connectors, etc.

3.5.2 Trouble Isolation Charge

When a visit to the customer's premises is necessary to isolate a problem reported to the Company but identified by the Company's technician as attributable to customer-provided equipment or inside wire, a separate charge applies in addition to all other charges for the visit.

3.5 CHARGES ASSOCIATED WITH PREMISES VISIT (Cont'd)

3.5.3 Inside Wire Maintenance and Installation

The customer may provide inside wiring for single-line station equipment or may elect to have the Company's technicians install or maintain inside wire.

a. Inside Wire Installation Charge

Charge to be billed will be based on the actual time and materials charges incurred when a customer requests new wire and jack installation or requests existing wire and jack moves, changes, removals, rearrangements, replacements or pre-wiring.

b. Inside Wire Maintenance Charge

The Inside Wire Maintenance Charge applies when a customer requests wire and jack maintenance. Charge to be billed will be based on the actual time and materials charges incurred when a customer requests maintenance of wiring.

3.6 CHANGE LONG DISTANCE CARRIER

The customer will incur a charge each time there is a change in the long distance carrier associated with the customer's line after the initial installation of service.

CHANGE LOCAL TOLL CARRIER

The customer will incur a charge each time there is a change in the local toll carrier associated with the customer's line after the initial installation of service.

Section 4 - PAY TELEPHONE SERVICE

[x]

4.1 GENERAL

4.1.1 Pay Telephone Line exchange service is one-party exchange service for use by pay telephone providers, location owners and interexchange carriers and is furnished solely for connection with coin, coinless, or combination coin/coinless pay telephone equipment to the Telephone Company's network.

4.1.2 Pay Telephone Line Service:

- a. Is available in all exchanges of the Company; foreign exchange service is not available to these lines.
- b. Provides for one listing in the white pages and one listing in the yellow pages of the Telephone Company directory for each Pay Telephone Line furnished. However, Non-published Number Service or Non-Listed Number Service at no charge are also available to Pay Telephone Line customers.
- c. Only one coin-operated or coinless public access telephone unit may be connected to each Pay Telephone Line.
- d. Will be provided on a dial-tone-first basis to enable end users to dial certain calls without requiring coin deposits, i.e., all emergency calls, telecommunications relay service calls, and non-sent paid calls.
- e. Service will be provided on a two-way basis, except lines for which a specific exemption has been granted by the Public Service Commission of Kentucky.
- f. The pay telephone provider is responsible for meeting all federal, state and local statutes with respect to provision of pay telephones in accordance with all hearing impaired and handicapped person requirements.

[x]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

Section 4 - PAY TELEPHONE SERVICE (Cont'd)

[x]

4.1 GENERAL (Cont'd)

4.1.2 Pay Telephone Line Service: (Cont'd)

- g. Temporary suspension of service (vacation service) is not available for Pay Telephone Line Service.
- h. Pay telephones connected to a Pay Telephone Line must be registered in compliance with Part 68 of the FCC's Rules and Regulations.
- i. Each pay telephone connected to a Pay Telephone Line must be capable of providing user call completion to 911 Universal Emergency Service, if available. If 911 service is not available, the pay telephone must permit access to the operator.
- j. Failure of the subscriber to comply with the provisions of this Tariff may result in the suspension or disconnection of the subscriber's service.

[x]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

Section 4 - PAY TELEPHONE SERVICE (Cont'd)

[x]

4.2 REGULATIONS

- 4.2.1 Pay Telephone Line Service is provided at the corresponding exchange's one-party business line rate as contained in the Telephone Company's corresponding Tariff on file with the Commission.
- 4.2.2 Where measured service is available in a given exchange, the business measured service rates apply to Pay Telephone Line Service.
- 4.2.3 Line Connection charges listed in Section 3 of this Tariff apply to Pay Telephone Line Service.
- 4.2.4 The business touch tone rate listed in Section 13 of this Tariff applies to Pay Telephone Line Service, if requested by the customer.
- 4.2.5 Directory assistance charges of \$0.50 per call apply to Pay Telephone Access Lines.
- 4.2.6 Pay Telephone Line Service customers will not be charged for non-published or non-listed telephone numbers. However, a non-recurring charge applies for each change of telephone number required to establish a non-published or non-listed number.
- 4.2.7 All subscribers to Pay Telephone Service shall have the right to select their presubscribed intraLATA toll provider at such time that intraLATA presubscription is available in the Company's service territory.

[x]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

Section 4 - PAY TELEPHONE SERVICE (Cont'd)

[x]

4.3 AVAILABLE FEATURES FOR PAY TELEPHONE SERVICE

4.3.1 Optional call screening/blocking/coin supervision functions, as listed below, are provided at the monthly rates stated. The non-recurring charges shown below do not apply to initial installations, but do apply to subsequent requests made by the customer.

- a. Inbound Call Operator Screening – Automatically screens and blocks incoming third-number billed or collect calls or both, so that callers cannot charge these calls to the customer's line.
- b. Outbound Call Operator Screening – Helps prevent unauthorized charges on outgoing calls, just as Inbound Call Operator Screening does for incoming calls.
- c. 900/976 Block – Prevents call to fee for information services.
- d. International Call Block – Restricts direct-dialed 011+ and 10-10XXX+011+International calls but allows operator assisted International calls, which are dialed using 01+ and 10-10XXX+01.
- e. Answer Supervision – Billing immediately begins when the called party answers the phone, thus assuring the price of calls will be accurate.
- f. 1+ Block – Restricts direct-dialed 1+ domestic or 011+ International call, but allows local calls, toll-free calls and alternate billed long distance calls.
- g. Block on Caller ID – Blocks outbound caller identifier digits.
- h. Block on Phone Smart Features – Prevents the automatic connection of directory assistance calls that will be charged to customer line.
- i. PIC Freeze – Eliminates the possibility of unauthorized changes to the payphone provider's primary intra/interlata carrier (PIC). No intra/interlata carrier can manually or electronically change a restricted PIC. This feature is automatically included.
- j. NXX Blocking – Certain NXX's may be blocked at the customer's request.

[x]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

Section 5 - SUPPLEMENTAL SERVICES

5.1 OPTIONAL CALLING SERVICE

5.1.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases.

5.1.2 Description of Features

a. 3-Way Calling

3-Way Calling allows a customer to add a third party to an existing call and form a three-way call.

b. 6-Way Calling allows a subscriber to call up to five other numbers to create a 6-way conference call.

c. Call Forwarding

Call Forwarding features, when activated, redirect attempted terminating calls to another customer-specified line.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding feature is billed for the forwarded leg of the call.

Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 OPTIONAL CALLING SERVICE (Cont'd)

5.1.2 Description of Features (Cont'd)

c. Call Forwarding (Cont'd)

Call Forwarding Busy automatically reroutes an incoming call to a customer predesignated number when the called number is busy. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Don't Answer automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within a fixed period. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Variable allows the customer to choose to reroute incoming calls to another specified telephone number. The customer activates and deactivates this feature, and selects the forward-to number for each activation.

Call Forwarding on Call Waiting enables a user to either answer a call waiting call or to allow it to be forwarded.

Remote Access to Call Forwarding allows the subscriber to activate and deactivate Call Forwarding Variable from a telephone other than the one to which Call Forwarding Variable is assigned. A pre-assigned PIN provides the subscriber with security for activating and de-activating the feature.

Call Forwarding Fixed automatically re-routes an incoming call to a pre-designated number when Call Forwarding is activated by the user.

Distinctive Call Forwarding Tone provides a recall dial tone indication to a line that has a Call Forwarding Variable feature activated. This indication reduces the number of user activation attempts when the feature is inactive.

d. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 OPTIONAL CALLING SERVICE (Cont'd)

5.1.2 Description of Features (Cont'd)

e. Call Waiting Originating

Call Waiting Originating allows the subscriber to apply call waiting treatment to a busy called line for the duration of the call attempt. Use is restricted to the subscriber's inter-terminal group.

f. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring.

[X]
|
[X]

g. Multi-Line Hunting

Hunt Group

Hunting is used to search for an idle line within a pre-defined multi-line hunt group. Each line in the multi-line hunt group is assigned a member number used for hunting.

Regular (sequential) Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, a busy signal is returned.

Circular Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, hunting continues from lowest member number up to the member before the dialed number. If no idle line is found, a busy signal is returned.

Uniform Call Distribution Hunting searches for an idle line beginning with the member with the fewest number of completed calls and continuing with the member with the next higher number of completed calls. When two or more members have the same number of completed calls, the hunt is conducted from the lowest to the highest member number. If no idle line is found by the end of the hunting sequence, a busy signal is returned.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

Effective: June 21, 2004

By: Deputy General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 OPTIONAL CALLING SERVICE (Cont'd)

5.1.2 Description of Features (Cont'd)

g. Multi-Line Hunting (Cont'd)

Series Completion Hunting (circular arrangement) This feature functions like Circular Hunting, but defines the hunted numbers with a list of up to 16 linked telephone numbers, instead of with a multi-line hunt group. Hunting starts with the called line and, if not idle line is found, ends with the line before the called line.

Queuing for Multi-Line Hunt Groups with Delay Announcements When all members of a multi-line hunt group are busy, incoming calls are queued on a first-in, first-served basis. The calling party is given delay (queuing) treatment consisting of tones and/or customer-provided announcements or music. Queuing for Multi-Line Hunt groups applies only to Circular Hunting and Uniform Call Distribution. It cannot be used with Regular (Sequential) Hunting or with Series Completion Hunting.

h. Speed Calling

Speed Calling allows the subscriber to create and maintain a personal list of phone numbers, each of which can be dialed by entering one or two subscriber-specified digits.

Speed Calling 8 provides for a Speed Calling list of up to eight numbers, each dialed by one digit.

Speed Calling 30 provides for a Speed Calling list of up to 30 numbers, each dialed by two digits.

i. Call Hold

Call Hold allows the subscriber to put an in-progress call on hold, place a second call and conduct a private conversation that the first caller can't hear, disconnect from the second call, then return to the original call.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.1 OPTIONAL CALLING SERVICE (Cont'd)

5.1.3 Rates and Charges

a. Monthly Rates

Rates for this service are located in Section 13 in the rate schedules for Residential Network Switched Service and Business Network Switched Service.

b. Connection Charges

Connection charges may apply when a customer requests connection to one or more custom calling features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 13 of this tariff.

c. Trial Period

The Company may elect to offer a free or reduced rate trial of any new custom calling feature(s) to prospective customers within 90 days of the establishment of the new feature. See 5.4, Service and Promotional Trials, below.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 ADVANCED CUSTOM CALLING SERVICES

5.2.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all Advanced Custom Calling services. Transmission levels may not be sufficient in all cases.

5.2.2 Description of Features

a. Caller ID Name and Number

Caller ID Name and Number automatically displays a caller's name and number, if available, on the user's station set display.

b. Automatic Callback (*69)

The Automatic Callback feature allows a customer to automatically Callback the last number dialed. This is accomplished by the customer activating a code. The network periodically tests the busy/free status of the called line for up to 30 minutes until both lines are found free and then Callbacks the call for the customer.

The Automatic Callback feature also allows customers, having reached a busy number, to dial a code before hanging up. Automatic Callback feature then continues to try the busy number for up to 30 minutes until it becomes free. Once the busy line is free the call is automatically called back and the customer is notified of the connected call via a distinctive ring.

121 Champion Way
Canonsburg, Pennsylvania 15317

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 ADVANCED CUSTOM CALLING SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

b. Automatic Callback (*69) (Cont'd)

The following types of calls cannot be Automatically Called back:

- Calls to toll-free Service numbers
- Calls to 900 Service numbers
- Calls preceded by an interexchange carrier access code
- International Direct Distance Dialed calls
- Calls to Directory Assistance
- Calls to 911

c. Automatic Recall (*66)

The Automatic Recall stores the number of the most recent incoming call (including unanswered incoming calls) to a customer's number. This allows a customer to dial back any missed or unanswered telephone calls.

d. Selective Distinctive Alert

Selective Distinctive Alert allows a user to create a list of up to twelve telephone numbers from which calls will be distinguished by a special ring or, if the line is busy, by a special call waiting tone. The number of the last incoming call can be added to the user's list even if it is not known.

When the feature is activated, calls from numbers on the user's Selective Distinctive Alert list have a special ring or special call waiting tone. Calls from numbers not on the list ring normally.

Using codes entered on the user's station set, the user can at any time: add numbers to or delete numbers from the Selective Distinctive Alert list, and activate or deactivate the feature.

e. Selective Call Acceptance/Forwarding

Selective Call Acceptance/Forwarding allows a user to create a list of up to twelve telephone numbers from which calls will be accepted or forwarded to a user-specified number.

When the feature is activated, calls from numbers that are not on the user's Selective Call Acceptance/Forwarding list are either routed to an announcement that calls are not being accepted or forwarded to a user-specified number.

Using codes entered on the user's station set, the user can at any time: add numbers to or delete numbers from the Selective Call Acceptance/Forwarding list; specify or change the forward-to number; specify how non-accepted calls are treated; and activate or deactivate the feature.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 ADVANCED CUSTOM CALLING SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

f. Selective Call Rejection

Selective Call Rejection allows a user to create a list of up to twelve telephone numbers from which calls will not be accepted. The most recent incoming call can be added to the list even if the number is not known. When the feature is activated, a call from a number on the user's Selective Call Rejection list is routed directly to an announcement that it will not be accepted. Calls from other numbers complete normally. Using codes entered on the user's station set, the user can at any time: add numbers to or delete numbers from the Selective Call Rejection list, and activate or deactivate the feature.

g. Caller ID Number

Caller ID Number automatically displays a caller's number, if available, on the user's station set display.

h. Caller ID Name

Caller ID Name automatically displays a caller's name, if available, on the user's analog station set display.

i. Call Trace (*57)

Call Trace enables a user to trace the last incoming call in order to take legal action against the caller. The user traces the call by either entering an activation code or pressing a feature button on the station set immediately after its receipt. The call trace is transmitted over a data link to an authorized law enforcement agency. An announcement informs the user whether the trace was successful. The user can then contact the law enforcement agency to take legal action. The user does not receive the Call Trace information.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.2 ADVANCED CUSTOM CALLING SERVICES (Cont'd)

5.2.2 Description of Features (Cont'd)

j. Bulk Calling Line ID

Bulk Calling Line ID provides PBXs, multi-line hunt groups, and Centrex groups or individual lines with information about calls originating from outside. As an option, the customer can have the same information collected for intra-group calls.

Call information is transmitted from the terminating switch to customer-provided equipment at the customer's premises for recording and storage.

k. Computer Access Restriction

Computer Access Restriction allows a user to create a list of up to 31 telephone numbers from which calls will be accepted for computer access dial-up.

When the feature is activated, calls from numbers that are not on the user's Computer Access Restriction list are routed to an announcement that calls are not being accepted or forwarded to a user-specified number.

Using codes entered on the user's station set, the user can at any time: add numbers to or delete numbers from the Computer Access Restriction list; specify how non-accepted calls are treated; and activate or deactivate the feature.

l. Anonymous Call Rejection

Anonymous Call Rejection automatically routes incoming calls that are intentionally marked private to an announcement that such calls are not accepted. The user is not alerted to the incoming call. Calls with numbers or names that are unavailable due to network restrictions or other similar reasons complete normally.

The user can activate and deactivate Anonymous Call Rejection with dialed codes.

Anonymous Call Rejection is included with all Caller ID features. Lines without a Caller ID feature can subscribe to Anonymous Call Rejection as an individual feature.

5.3 CENTREX-TYPE SERVICE

5.3.1 General

The features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service. Transmission levels may not be sufficient in all cases.

5.3.2 Legacy Centrex-Type Service Features

a. Three Way Conference, Consultation, Transfer

3-Way Calling allows a subscriber to add a third party to an existing call and form a three-way conference call.

b. 6-Way Calling allows a subscriber to call up to five other numbers to create a six-way conference call.

c. Call Pickup

This feature allows a user to answer any call within an associated preset pickup group. If more than one line in the pickup group has an unanswered incoming call, the call to be answered is selected by the switching system. Call Pickup answers a call that has been directed to another station within the same preset Call Pickup group.

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

d. Call Transfer - All Calls

Call Transfer allows a station user to transfer an established call to another station. The station from which the call is transferred will be assessed any long distance charges incurred as a result of the transfer.

e. Directed Call Pickup with Barge-In

This feature answers calls directed to a specific line from any other telephone line in the user group.

f. Directed Call Pickup without Barge-In

This feature is identical to the Directed Call Pickup with Barge-In except, if the line being picked up has already been answered, the party dialing the pickup code is routed to reorder (i.e., fast busy) rather than permitted to barge in on the established connection and create a three-way call.

g. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The pattern is based on whether the call is from within the station group, external to the station group, forwarded from the attendant position, or from a station within the Call Waiting feature.

h. Distinctive Ringing / Call Waiting Tone (Centrex-type only)

This feature applies a distinctive ringing or call waiting tone that enables a user to determine the source of an incoming call. The pattern is based on whether the call is from within the station group, external to the station group, forwarded or extended from the attendant position, or from a station within the Call Waiting feature.

Hunt Group

Hunting is used to search for an idle line within a pre-defined multi-line hunt group. Each line in the multi-line hunt group is assigned a member number used for hunting

Regular (sequential) Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, a busy signal is returned.

Circular Hunting searches for an idle line beginning with the dialed member and continuing by increasing member number to the highest member number. If no idle line is found, hunting continues from lowest member number up to the member before the dialed number. If no idle line is found, a busy signal is returned.

Uniform Call Distribution Hunting searches for an idle line beginning with the member with the fewest number of completed calls and continuing with the member with the next higher number of completed calls. When two or more members have the same number of completed calls, the hunt is conducted from the lowest to the highest member number. If no idle line is found by the end of the hunting sequence, a busy signal is returned.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

j. Speed Calling (Centrex-type only)

Speed Calling allows the subscriber to create and maintain a personal list of phone numbers, each of which can be dialed by entering one or two subscriber-specified digits.

Speed Calling 8 provides for a Speed Calling list of up to eight numbers, each dialed by one digit.

Speed Calling 30 provides for a Speed Calling list of up to 30 numbers, each dialed by two digits.

k. Terminal Group and Station Restriction (Centrex-type only)

This feature defines a station's network access capability, either individually within a Centrex-type group, or for the group as a whole. It defines the Centrex-type group and what level of access a station will have; i.e. intragroup only, toll restriction, etc.

l. Series Completion

This feature is a form of hunting similar to the multiline hunt group hunting and the Call Forwarding Busy Line feature. It allows calls to be made to a busy directory number to be routed to another specified directory number. The series completion hunt begins with the originally dialed member of the series completion group, and searches for an idle directory number from the list of directory numbers.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

- m. Uniform Call Distribution (Uniform Hunting) (Centrex-type only)

This feature is a hunting arrangement that assigns incoming calls uniformly among the stations in the group.

- n. Account Codes

This feature adds an account number (code) to an Automatic Message Accounting (AMA) and/or Message Detail Recording (MDR) record for assigning customer charges. The number of digits in a customer's account code group will be defined by the Company.

- o. Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another customer-specific line. The customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

p. Call Forwarding (Cont'd)

Call Forwarding Busy automatically reroutes an incoming call to a customer predesignated number when the called number is busy. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Don't Answer automatically reroutes an incoming call to a customer predesignated number when the called number does not answer within a fixed period. The feature is always activated on the subscriber's line. A service order is required to change the forward-to number.

Call Forwarding Variable allows the customer to choose to reroute incoming calls to another specified telephone number. The customer activates and deactivates this feature, and selects the forward-to number for each activation.

Remote Access to Call Forwarding Variable allows the subscriber to activate and deactivate Call Forwarding Variable from a telephone other than the one to which Call Forwarding Variable is assigned. A pre-assigned PIN provides the subscriber with security for activating and de-activating the feature.

Call Forwarding Fixed automatically re-routes an incoming call to a pre-designated number when Call Forwarding is activated by the user.

q. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., ~~is disabled~~ by dialing a special code prior to placing a call, and is automatically reactivated when the customer disconnects from the call.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.2 Legacy Centrex-Type Service Features (Cont'd)

- r. Call Waiting Originating allows the subscriber to apply call waiting treatment to a busy called line for the duration of the call attempt. Use is restricted to the subscriber's inter-terminal group.

- s. Call Hold

Call Hold allows the subscriber to put an in-progress call on hold, place a second call and conduct a private conversation that the first caller can't hear, disconnect from the second call, then return to the original call.

- t. Call Transfer

Call Transfer allows the subscriber to transfer an in-progress call to another line. Use is restricted to the subscriber's intra-terminal group.

- u. Automatic Callback Calling

When a subscriber reaches a busy line, Automatic Callback Calling can be invoked with a dialed code to camp on to the busy line for up to 30 minutes and to alert the subscriber when that line becomes idle. This is not the same as Automatic Callback, and Advanced Custom Calling feature.

- v. Hot Line

A Hot Line Circuit automatically connects to a pre-determined number when the hot line phone goes off the hook.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups

a. Standard Features Package

These common "core" features are offered to all TelCove Centrex customers at no extra charge. They are included automatically.

- Automatic Callback Calling allows a subscriber to camp on a busy line for up to 30 minutes. When the lines of both the subscriber and the called party are idle, automatic callback calling alerts the subscriber with a distinctive ring.
- Call Forwarding Variable, when activated by the subscriber, forwards all calls placed to the subscriber's line to another subscriber specified number.
- Call Hold allows the subscriber to put an in-progress call on hold, then to place another call.
- Call Transfer allows a station line to transfer an established call to another station line inside or outside the customer group.
- Direct Inward Dialing allows incoming calls from the exchange network to reach a specific station line without attendant assistance.
- Direct Outward Dialing allows a station line to place external calls to the exchange network without attendant assistance.
- Directed Call Park allows a station line to park a call against another station line in the customer group, or to its own station line. The parked call can be retrieved from any station line by dialing a feature code and the line number against which the call is parked.
- Directed Call Pickup Without Barge-In
- Per Call Privacy prevents the station line name and number from appearing on the called party's Caller ID telephone or display unit. Must be activated prior to each outgoing call.
- Station to Station Dialing allows a station line to complete calls to other station lines within the customer group without the assistance of an attendant, usually by dialing 4 digits.
- Three Way Calling allows a station line to add a third party to an existing two-party call.
- Touch Tone - Dual tone Multi-Frequency or DTMF. Each button on a touch tone telephone set will produce a unique, simultaneous combination of two different tones, one high frequency and one low frequency.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

b. Optional No-Charge Features Package

These less common and/or mutually exclusive features are offered to all TelCove Centrex customers at no extra charge (with the exceptions of Uniform Call Distribution, and queuing). Any or all of these features may be included at the customer's request.

- Account Codes are dialed immediately preceding an outward call and enable a user to associate a call with a specific account code.
- Authorization Codes are dialed immediately preceding an outward call and identify callers on the SMDR record, assign a Network Class-of Service (NCOS), and control network access.
- Call Forwarding Busy re-directs calls attempting to terminate to a busy station line to a pre-determined line inside or outside the customer group.
- Call Forwarding Don't Answer re-directs incoming calls to a pre-determined line inside or outside the customer group when the called station line does not answer within a pre-determined time.
- Call Waiting allows an internal or external incoming call to a busy station line to be held waiting while a signal is directed to the busy station line. Call Waiting may be canceled for a call by dialing a deactivation code immediately prior to the call, or by using the three-way calling and the deactivation code during a call.
- Cancel Call Waiting – Call waiting may be canceled for a call by dialing a deactivation code immediately prior to the call, or by using three-way calling and the deactivation code during a call.
- Distinctive Call Waiting Tones provides different call waiting tone cadences for internal and external calls to the customer group.
- Distinctive Ringing provides different ringing patterns for internal and external calls to the customer group.
- Group Call Pickup allows a station line to answer incoming calls to another station line within a defined call pickup group.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

b. Optional No-Charge Features Package (Cont'd)

- Hunting routes an incoming call directed to a busy station to an idle station line within a pre-arranged hunt group. Three varieties of hunting are available at no extra cost: sequential, series completion (regular), and circular. Uniform Call Distribution (UCD) is a variety of hunting available as a chargeable feature. A sequential hunt routes a call directed to a busy station to the sequential hunt number assigned to the station, up to a maximum of 16 numbers. A series completion (regular) hunt requires a multi-line hunt group, and routes a call directed to a busy station to the next station in the multi-line hunt group list, when the hunt reaches the end of the list, the hunt terminates. A circular hunt requires a multi-line hunt group, and routes a call directed to a busy station to the next station in the multi-line hunt group list, when the hunt reaches the end of the list, the hunt continues with the first station on the list until the original station is reached, then the hunt terminates. For a definition of UCD, see Uniform Call Distribution in the Optional Chargeable features section. Queuing is available with all multi-line hunt group types; see queue Slot in the Optional chargeable features section.
- Intercept routes incoming external calls made to a non-working Centrex-Type line or outgoing calls that violate class of service restriction to a generic announcement.
- Line Treatments provide the capability to allow or deny certain types of individual station line features, call origination, and call termination.
- Speed Calling 6 permits a station line user to dial selected numbers using fewer digits than normally required, using customer-defined codes. There are six codes available, applicable only to that individual station.
- Speed Calling 30 permits a station line user to dial selected numbers using fewer digits than normally required, using customer-defined codes. There are thirty codes available, applicable only to that individual station line.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

c. Optional Chargeable Features Package

Any or all of these chargeable, customer specific features will be included in TelCove Centrex at the customer's request.

- Automatic Route Selection (ARS) Automatically selects the preferred route for network calls when a station user dials a pre-selected code.
 - ARS – Expensive Route Warning Tone provides a warning tone to indicate the selection of an expensive route.
 - ARS – Facility Restriction Level determines both the type of call and the type of facility available to the associated user.
 - ARS – NPA/NXX Restrictions enables the restriction of NPA and/or NXX codes for stations within a customer group.
- Carrier Access Port enables a station user within the customer group to directly access a customer-specified interexchange carrier through the use of access codes or automatic route selection. Private facilities to the interexchange carrier are required.
- Extended IDP Arrangement provides abbreviated dialing and usage-charge-free calling between intra-company Centrex stations in different rate centers within a single LATA. If ordered Extended IDP arrangement must be applied to all lines in the centrex.
- Loudspeaker Paging Access allows a station line user to access customer-provided loudspeaker paging equipment by dialing an access code. Requires dedicated signal circuit.
- Message Waiting Lamp lights a lamp on suitable equipped customer-provided station equipment to signify a voice mail message waiting status. This feature is provided free of charge with TelCove Voice Mail. If an alternate voice mail vendor is used, this feature carries a charge and may require customer-provided private facilities.
- Music On Hold provides music for callers placed on hold within the Centrex system. Requires suitable customer-provided music source. Requires customer to purchase necessary circuit(s).
- Remote Access to Call Forwarding Variable enables the subscriber to activate and deactivate Call Forwarding Variable from a line other than the subscribing line, using a PIN and following voice prompts. Requires Call Forwarding Variable on the subscriber's line.
- Secondary – Only Telephone Number – A telephone number which does not have its own facilities, but uses the facilities of a primary directory number.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

c. Optional Chargeable Features Package

- Six-Way Calling allows a station line to establish a conference call of 4-6 conferees without the assistance of the attendant.
- Time of Day Network Class of Service Routing provides dynamic class-of service (COS) values based on the time of day, day of week, or week of year.
- Uniform Call Distribution (UCD) is a multi-line hunt feature. A UCD is designed to deliver a more equitable distribution of incoming calls to all stations in the multi-line hunt group than other hunting options. A UCD group is assigned a directory number specific to the UCD group, but not specific to any station within the UCD group. Calls to the UCD directory number are directed to the station next on the UCD group list after the last station to answer a call directed to the UCD directory number. If that station is busy, the call routes to the next station in the multi-line hunt group list, and so on. When the hunt reaches the end of the list, the hunt continues with the first station on the list until the original station is reached. If no stations are idle, queuing is available; see Queue Slot below.
- Queue Slot provides a queuing or "waiting area" for calls directed to a multi-line hunt group that has no idle stations. The size of the queue is equal to the number of queue slots purchased by the customer. Queued calls are directed to the next idle station on a first in, first out basis. Queued callers will hear ringing. Messages or music for queued callers is available with customer-provided equipment. If all stations are busy and the queue is full, the caller will hear a busy signal.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

d. Advanced Custom Calling Features Package

Any or all of these chargeable features are available to the subscriber upon request.

- Automatic Callback redials the telephone number of the most recent incoming, internal, or external call automatically. If the redialed line is busy, the call will be attempted for a maximum of 30 minutes. Should the redialed line become idle during this period and the originating station line is available to complete the call, then a distinctive ringing signal will alert the originating station line that the call can be completed.
- Automatic Recall redials the telephone number of the most recent outgoing external call automatically. If the redialed line is busy, the call will be attempted for a maximum of 30 minutes. Should the redialed line become idle during this period and the originating station line is available to complete the call, then a distinctive ringing signal will alert the originating station line that the call can be completed.
- Call Trace initiates a trace of the most recent incoming call by dialing a special code immediately after terminating the call. The central office equipment records and stores the incoming call message detail (date and time of the call and telephone number) provided that the call was completed over suitably equipped facilities, and the customer has not made or received another call after the call to be traced was terminated. The results of the trace are not provided to the customer directly, but are automatically reported to TelCove where it can be obtained by an appropriate law enforcement agency when the customer files a complaint. TelCove assumes no responsibility for damages if a trace attempt is not successful.
- Caller ID – Number displays the originating telephone number of an incoming call on customer-provided equipment.
- Caller ID – Number & Name displays the originating telephone number and associated name of an incoming call on customer-provided equipment.

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

d. Advanced Custom Calling Features Package (Cont'd)

- Directory Number Privacy prevents the station line name and number from appearing on the called party's Caller ID telephone or display unit. If the feature is active, the deactivation code will toggle the feature off for a single call. If the feature is not active, the activation code will toggle the feature on for a single call.
- Selective Call Acceptance allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will be accepted.
- Selective Call Forwarding allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will be forwarded to another subscriber-specified phone number.
- Selective Call Rejection allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will not be accepted.
- Selective Distinctive Alert allows the subscriber to create and maintain a list of up to 12 phone numbers from which calls will be announced with a special ring.

e. Attendant Console Features Package

These chargeable features are available only as a complete package providing advanced attendant call handling features. These features require an attendant console.

- Attendant Access to Paging allows an attendant to access customer-provided loudspeaker paging equipment. Requires dedicated signal circuit.
- Attendant Autodial permits the dialing of a frequently called number by depressing the autodial feature key, which is programmed with the number.
- Attendant Automatic Recall returns attendant extended calls to the console after a predetermined time period.
- Attendant Camp-On allows the attendant to extend an incoming call to a busy station. When the call in progress terminates, the camped-on call will ring at the station.

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

e. Attendant Console Features Package (Cont'd)

- Attendant Conference allows an attendant to establish a six-port conference call.
- Attendant Speed Calling Allows an attendant to dial frequently dialed numbers by depressing a speed dial key and dialing one or two digits instead of all digits in the number.
- Attendant Transfer allows calls transferred by a station line user to the attendant to be queued on a first-in, first-out basis.
- Busy Verification of Station Lines allows the attendant to determine if a station line is idle.
- Busy Verification of Trunks allows the attendant to determine if a trunk is idle.
- Call Park Recall Timer provides a separate timer for calls parked by the attendant. The timer defines the maximum time period that a call can spend in the parking mode. If the call is not retrieved or abandoned within the defined timer, the call is unparked and the attendant is recalled.
- Call Splitting allows the attendant to talk privately to either the calling party or the called party.
- Caller ID – Number & Name Displays the originating telephone number and associated name of an incoming call on customer-provided equipment.
- Direct Station Selection allows the attendant to access station lines by depressing a button associated with that station.
- Interposition Calling allows communication and transfer of calls between attendants.
- Multiple Console Operation allows the assignment of more than one console per system.
- Night Service Flexible – Calls that are normally routed to the attendant during the day are routed to pre-designated locations at night.
- Position Busy allows the attendant to make the console unavailable to additional queued calls.
- Trunk Answer From Any Station allows any station in the customer group to answer an incoming call by dialing a code. The code is dialed when the TAAS alerting device sounds.

f. Digital Electronic Telephone Set (DETS) Features Package

These chargeable features are available only as a complete package exclusively for digital centrex customers. The package provides advanced station call handling features.

- Add On Module allows for the provisioning of additional modules attached to a DETS.
- Auto Intercom allows a digital electronic telephone set user to directly terminate on another pre-designated digital electronic telephone set by depressing the intercom key.
- Automatic Call Hold eliminates the need to activate the hold feature or hold button prior to answering a second call appearance. When a second call appearance is selected, the first call appearance is automatically put on hold.
- Caller ID – Number & Name displays the originating telephone number and associated name of an incoming call on customer-provided equipment.
- Direct Station Selection allows the user to ring a monitored appearance station line by depressing the button associated with that monitored appearance.
- Display Called Number provides the user of a digital electronic telephone set equipped with an LCD with a display of dialed digits during the origination, termination, programming, and feature activation operations.
- Feature Access provides for the use of dial codes as an alternative method of accessing digital electronic telephone set features by feature keys.
- Feature Display provides the user of a digital electronic telephone set equipped with an LCD with a display of user-entered data and incoming call information during the use of other Centrex Features.

5.3 CENTREX-TYPE SERVICE (Cont'd)

5.3.3 TelCove Centrex-Type Service Feature Groups (Cont'd)

- f. Digital Electronic Telephone Set (DETS) Features Package (Cont'd)
- Group Intercom enables a station line to terminate, using abbreviated dialing, on a member of a designated intercom group without using a call appearance.
 - Multiple Appearance of Centrex Lines allows an analog or digital Centrex-Type line to be assigned to one or more additional digital electronic telephone sets. Allows on Centrex-Type line to appear multiple times on the same digital electronic telephone set.
 - Time Key provides the current time and date on a digital electronic telephone set display.

5.3.4 Rates and Charges

- a. Monthly Rates
Rates for this service are located in Section 13, Residential Network Switched Service, and Section 13, Business Network Switched Service.
- b. Connection Charges
Connection charges may apply when a customer requests connection to one or more features. Orders requested for the same customer account made at the same time for the same premises will be considered one request. These charges may not apply if the features are ordered at the same time as other work for the same customer account at the same premises.

See Rate Schedule in Section 13 of this tariff.

- c. Trial Period
The Company may elect to offer a free or reduced rate trial of any new Centrex-type feature(s) to prospective customers within 90 days of the establishment of the new feature. See Section 5.4, Service and Promotional Trials.

5.4 SERVICE AND PROMOTIONAL TRIALS

5.4.1 General

CONTRACTS

At the option of the Company, service may be offered on a contract basis to meet specialized requirements of the Customer not contemplated in this tariff. The terms of each contract shall be mutually agreed upon between the Customer and Company and may include discounts off of rates contained herein, waiver of recurring or nonrecurring charges, charges for specially designed and constructed services not contained in the Company's general service offerings, or other customized features. The terms of the contract may be based partially or completely on the term and volume commitment, type of originating or terminating access, mixture of services or other distinguishing features. Service shall be available to all similarly situated Customers for a fixed period of time following the initial offering to the first contract Customer as specific in each individual contract.

DEMONSTRATION OF SERVICE PROMOTION

From time to time the Company may demonstrate service for potential Customers by providing free use of its network on a limited basis for a period of time, not to exceed one (1) month. Demonstration of service and the type, duration or quantity of service provided will be at the Company's discretion and regulations established by the Commission. All demonstrations are offered on a non-discriminatory basis, and will be conducted in accordance with Commission rules regarding promotional offerings.

COMPETITIVE RESPONSE PROMOTION

In order to acquire or retain customer, the Company may match certain offers made by other inter-exchange carriers/resellers where the customer can demonstrate to the Company's satisfaction that it intends to accept such offer as an inducement to subscribe to or remain subscribed to such other inter-exchange carrier's/reseller's services. These rates will be offered to the Customer in writing and on a non-discriminatory basis and in accordance with Commission rules regarding promotional offerings. Information concerning contracts resulting from a special request will be submitted to the Commission and such services will be added to this tariff as they are developed.

5.4 SERVICE AND PROMOTIONAL TRIALS (Cont'd)

5.4.2 Regulations

- a. Appropriate notification of the Trial will be made to all eligible customers and to the Commission. Appropriate notification may include direct mail, bill inserts, broadcast or print media, direct contact or other comparable means of notification.
- b. During a Service Trial, the service(s) is provided automatically to all eligible customers, except those customers who choose not to participate. Customers will be offered the opportunity to decline the trial service both in advance and during the trial. A customer can request that the designated service be removed at any time during the trial and not be billed a recurring charge for the period that the feature was in place. At the end of the trial, customers that do not contact the Company to indicate they wish to retain the service will be disconnected from the service at no charge.
- c. During a Promotional Trial, the service is provided to all eligible customers who ask to participate. Customers will be notified in advance of the opportunity to receive the service in the trial for free. A customer can request that the service be removed at any time during the trial and not be billed a recurring charge for the period that the service was in place. At the end of the trial, customers that do not contact the Company will be disconnected from the service.
- d. Customers can subscribe to any service listed as part of a Promotional Trial and not be billed the normal Connection Charge. The offering of this trial period option is limited in that a service may be tried only once per customer, per premises.
- e. The Company retains the right to limit the size and scope of a Promotional Trial.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.5 BUSY VERIFICATION AND INTERRUPT SERVICE

[X]

5.5.1 General

Upon request of a calling party, the Company will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

5.5.2 Rate Application

a. A Verification Charge will apply when:

- 1. The operator verifies that the line is busy with a call in progress,
or
- 2. The operator verifies that the line is available for incoming calls.

b. Both a Verification Charge and an Interrupt Charge will apply when the operator verifies that a called number is busy with a call in progress and the customer requests interruption. The operator will interrupt the call advising the called party of the name of the calling party and the called party will determine whether to accept the interrupt call. Charges will apply whether or not the called party accepts the interruption.

See Rate Schedule in Section 13 of this tariff.

c. No charge will apply when the calling party advises that the call is from an official public emergency agency.

[X]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval.

5.6 TRAP CIRCUIT SERVICE

5.6.1 General

Trap Circuit Service is designed to allow the customer to control the release of an incoming call so that in situations involving emergency or nuisance calls, calls may be held and traced.

5.6.2 Regulations

- a. This service is provided when there is a continuing requirement for the identification of the calling party in cases involving nuisance calls or emergency situations or other situations involving law enforcement or public safety.
- b. The customer shall be required to sign a written request for this service. By signing the request the customer shall release the Company from any liability, and the customer agrees to indemnify and hold the Company harmless from any liability it may incur in providing this service. The Company may require the recommendation of an appropriate law enforcement agency prior to providing this service. Any information obtained by the Company in the tracing of a call will be provided only to the law enforcement agency designated. The only exception to this will be emergency situations such as fire, serious illness or other similar situations, in which case the appropriate agency will be notified.
- c. The equipment required to provide this service cannot be operated in all central offices. The service is restricted to locations where facilities permit.
- d. The Company makes no guarantee concerning the tracing and identification of any call when the service is provided. The Company will furnish the service only on the express condition that no liability shall attach to it for any reason arising out of the provision of the service.

5.6.3 Rates

Upon request for this service, the monthly charge to the customer will be increased by any charges incurred by the Company for the provision of this service.

5.7 DIRECTORY ASSISTANCE SERVICE

5.7.1 General

A customer may obtain assistance, for a charge, in determining a telephone number by dialing Directory Assistance Service. A customer can also receive assistance by writing the Company with a list of names and addresses for which telephone numbers are desired.

5.7.2 Regulations

A Directory Assistance Charge applies for each telephone number, area code, and/or general information requested from the Directory Assistance operator except as follows:

- a. Calls from pay telephones.
- b. Requests for telephone numbers of non-published service.
- c. Requests in which the Directory Assistance operator provides an incorrect number. The customer must inform the Company of the error in order to receive credit.
- d. Requests from individuals with certified visual or physical handicaps in which the handicap prevents the use of a local directory. Individuals must be certified in accordance with the terms outlined under "Handicapped Person" in Section 9 of this Tariff, up to a maximum of 50 requests per month.
- e. Requests from patients in hospitals, skilled nursing homes and convalescent homes which have been properly licensed by the State of Kentucky and which have as their predominant undertaking the surgical, medical and nursing care of the sick and disabled. Such hospitals, skilled nursing homes and convalescent homes shall provide to Company proof of non-profit status as granted by the IRS.

5.7.3 Directory Assistance Call Completion

5.7.3.1 General

- a. The Telephone Company provides Directory Assistance Call Completion (DACC) Service to customers who have accessed local Directory Assistance. Directory Assistance Call Completion service provides Directory Assistance customers the option of having their calls to the requested directory number completed automatically by the Operator Services System (OSS).

Directory Assistance Call Completion is activated by the customer when the customer depresses a specific digit on a touch-tone telephone after the DACC announcement prompt. The DACC announcement prompt will be given after the customer receives the requested directory number from the automated Directory Assistance System (DAS).

5.7.3.2 Regulations

- a. The calling number and the number requested to be completed must be in the same Numbering Plan Area designation, or for points in a contiguous Numbering Plan Areas which are Local Service to any exchange in the originating Numbering Plan Area.
- b. Only the second provided Directory Assistance telephone number will be completed if two Directory Assistance requests are made by the customer during the same call.
- c. In addition to the Call Completion charge, normal existing Directory Assistance charges will apply. All toll, message, or local measured usage charges are also applicable.
- d. If a call is not completed, i.e. busy or no answer, no charge for the Directory Assistance Call Completion Service is applicable. However, the appropriate charge for the Directory Assistance call will apply.

5.9 VOICE MAIL SERVICE

5.9.1 Voice Messaging

Provides users with an electronic voice messaging system, which answers calls when users are on the phone or away from their desk. The voice messaging products are as follows:

1. Voice Mail

A. Voice Mail Features

1. Message Waiting Indication – This feature notifies subscriber of a message stored in saved message bin.
2. Remote Mailbox Access – This feature allows subscriber to retrieve voice mail messages from a remote location.
3. Deleted Message Bin – This feature gives subscriber access to deleted messages for up to seven days.
4. Speed Call – This feature allows subscriber, while listening to a voice mail message, to automatically outdial to the phone number of the person who left the message.
5. Message Sending – This feature allows subscriber to record a message and send it to another mailbox in the system.

5.9.1 Voice Messaging

1. Voice Mail (Cont'd)

A. Voice Mail Features (Cont'd)

2. Pager Notification – This feature pages subscriber upon receipt of any new message or urgent message.
3. Fax Mail – This feature holds the excess in-coming faxes until they can be successfully delivered. It also sends in-coming faxes to remote faxes.
4. Auto Attendant (Per Menu) – This feature routes calls according to preset directives employing a transfer tree accessed through the telephone keypad. Caller can transfer to department menus, end users, bulletin board, fax service, or dial-by name directory.
5. Unified Messaging – This feature enables subscribers to store their voice, fax, and email messages in one mailbox which can be accessed through a web interface or through a telephone interface.
6. Submailboxes – This feature enables customer to attach up to nine mailboxes to one main mailbox.
7. Alias Mailbox for Hunt and Non-Hunt Line – A mailbox pointer in the voice messaging system required to point more than one line to the same mailbox.
8. Call Forwarding Busy with Mailbox – Switch feature to forward calls to voice mail when a line is busy.
9. Call Forwarding Don't Answer with Mailbox – Switch feature to forward unanswered calls to voicemail.
10. DID Basic Voice Mailbox – A basic voice mailbox built on a telephone number which exists only in the switch for "virtual", "phantom", or "stand alone" voice mail.
11. DID Enhanced Voice Mailbox – An enhanced voice mailbox built on a telephone number which exists only in the switch for "virtual", "phantom", or "stand alone" voice mail.
12. Messaging Feature – Switch feature to enable message waiting indication and answering of calls by voice mail.

5.10 BLOCKING SERVICE

5.10.1 General

Blocking service is a feature that permits customers to restrict access from their telephone line to various discretionary services. The following blocking options are available to residential and business customers:

- a. 900, 700 Blocking - allows the subscriber to block all calls beginning with the 900 and 700 prefixes (i.e. 900-XXX-XXXX) from being placed.
- b. 900, 971, 974 & 700 Blocking - allows the subscriber to block all calls beginning with the 900, 971, 974 and 700 prefixes from being placed.
- c. Third Number Billed and Collect Call Restriction - provides the subscriber with a method of denying all third number billed and collect calls to a specific telephone number provided the transmitting operator checks their validation data base.
- d. Toll Restriction (1+ and 0+ Blocking) - provides the subscriber with local dialing capabilities but blocks any customer-dialed call that has a long distance charge associated with it.

Toll Restriction will not block the following types of calls: 911 (Emergency), toll-free, and operator assisted toll calls.
- e. Toll Restriction Plus - provides subscribers with Toll Restriction, as described in 1.d. of this Section, and blocking of 411 calls.
- f. Direct Inward Dialing Blocking (Third Party and Collect Call) - provides business customers who subscribe to DID service to have Third Party and Collect Call Blocking on the number ranges provided by the Company.

5.11 CUSTOMIZED NUMBER SERVICE

5.11.1 General

- a. Customized Number Service allows a customer to order a specified telephone number rather than the next available number.
- b. Customized Number Service is furnished subject to the availability of facilities and requested telephone numbers.
- c. The Company will not be responsible for the manner in which Customized Numbers are used for marketing purposes by the customer.
- d. When a new customer assumes an existing service which includes Customized Number Service, the new customer may keep the Customized Number, at the tariffed rate, with the written consent of the Company and the former customer.
- e. The Company reserves and retains the right:
 1. To reject any request for specialized telephone numbers and to refuse requests for specialized telephone numbers;
 2. Of custody and administration of all telephone numbers, and to prohibit the assignment of the use of a telephone number by or from any customer to another, except as otherwise provided in this Tariff;
 3. To assign or withdraw and reassign telephone numbers in any exchange area as it deems necessary or appropriate in the conduct of its business.

5.12 CUSTOMER REQUESTED SERVICE SUSPENSION

5.12.1 General

At the request of the customer the Company will suspend incoming and outgoing service on the customer's access line for a period of time not to exceed one year. The equipment is left in place and directory listings are continued during the suspension period without change. At the customer's request the Company will provide the customer with an intercept recording referring callers to another number.

5.12.2 Rate Adjustment

The company will assess a lower monthly rate for Customer Requested Service Suspension as noted below. However, any mileage charges, monthly cable charges or monthly construction charges are still due, without reduction during the period of suspension.

| <u>Period of Suspension</u> | <u>Charge</u> |
|---|-------------------------------------|
| - First Month or Partial Month | Regular Monthly Rate (no reduction) |
| - Each Additional Month (up to the one-year limit) | ½ Regular Monthly Rate |

5.13 REMOTE CALL FORWARDING SERVICE

Service Area: Where facilities are available, the service area is defined by the NPA-NXX Codes and Exchanges listed below.

Local Calling Area: Exchanges and zones included in the local calling area for the NXX designations are specified below. NXXs associated with each particular exchange or zone may be found in the directory listings directory published by the incumbent local exchange carrier in the Customer's exchange area.

5.13.1 General

Remote Call Forwarding (RCF) is a local exchange service that utilizes a telephone number and Electronic Central Office facilities by which all incoming calls to the RCF telephone number are forwarded automatically to the subscriber's central office line in the same exchange as the RCF number or in a different exchange or to an inward WATS (toll-free Service) access line.

5.13.2 Regulations

- a. Remote Call Forwarding service is offered in Electronic offices where facilities permit.
- b. RCF paths may be used singly, in groups, or as overflow paths for foreign exchange trunk groups. Only one forwarding number is permitted per group.
- c. Remote Call Forwarding is not offered where the terminating number is a coin telephone.
- d. Identification of the originating telephone number is not provided to the Remote Call Forwarding customer.
- e. Transmission may not be satisfactory on all calls.

5.13 REMOTE CALL FORWARDING SERVICE (Cont'd)

5.13.3 Rates

In addition to the rates specified in Section 13 of this tariff, the subscriber to Remote Call Forwarding is responsible for dial type (DDD) station-to-station local and toll charges applicable to calls transferred from the forwarding location to the terminating location. The charge applies for each call answered, including person-to-person and collect calls which are refused at the terminating location. For calls transferred within the same local calling area, the message rate schedule for business service in the RCF central office applies. In exchanges where only flat rate service is furnished, the charge for each local call transferred is a Rate Band 1 (A) charge. No allowance for local calls is included in the RCF monthly rate.

5.14 Calling Card Services

Calling Card Service can be used from anywhere in the United States and may terminate in over 200 countries in the world. Calls are originated by dialing 0 + area code and telephone number.

5.15 FRAME RELAY SERVICE (FRS)

5.15.1 Service Description

The Company provides Frame Relay Service (FRS) with transmission speeds of 56 Kbps to 1.544Mbps in 64Kbps increments. All services are generally available from TelCove as specified herein.

Employing digital technology, FRS provides high speed access and throughput to and among Local Area Networks (LANs), as well as computers. Utilizing statistical multiplexing, FRS enables users to allocate circuit bandwidth to applications as needed, up to the maximum bandwidth purchased, rather than assigning fixed channels to specific applications. FRS supports transmission speeds up to 44.736 Mbps.

FRS requires the use of customer terminal equipment that functions as a multiplexer/bridge/router. This terminal equipment must be purchased separately from the FRS and must conform to CCITT and ANSI standards. The terminal equipment accumulates customer data and puts it into a frame relay format suitable for transmission over the TelCove network.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.15 FRAME RELAY SERVICE (FRS) (Cont'd)

5.15.2 Service Elements

A. Network Interface

The point at which a customer's data transmissions first enter the network supporting Frame Relay Service is the network interface. It is the point of interconnection between Company communications facilities and Customer terminal equipment.

B. Access Link

FRS Access Links provide access to TelCove Frame Relay Network, connecting customer facilities at the network interface, or connecting other Frame Relay networks facilities at the network interface.

Frame Relay uni-directional polling is required on the Access Link when used in conjunction with User-To-Network Information Transfer. Frame Relay bi-directional polling is required on the Access Link when used in conjunction with the Network-To-Network Information Transfer.

C. Port

Ports are the physical entry points for Access Links and the originating and terminating points for Permanent Virtual Circuits. Ports include the electronic equipment used in connecting these service elements to the TelCove Frame Relay Network. Ports are provisioned from 56/64 up to T1 in 64K increments.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.15 FRAME RELAY SERVICE (FRS) (Cont'd)

5.15.2 Service Elements (Cont'd)

D. Permanent Virtual Circuit (PVC)

A PVC is a logical channel from one Frame Relay Port to another Frame Relay Port within the TelCove - Network. PVCs are provisioned, with customer-selected Committed Information Rates (CIRs), on either 56 Kbps Access Links or 1.544 Mbps Access Links, depending on the customer's data networking requirements. Circuits for PVC's are available from 8K to 1024K in 8K increments.

E. Disaster Recovery PVC

The Disaster Recovery PVC feature reroutes customer's PVCs from the out-of-service primary location to customer's backup location that has a backup Frame Relay Access Link (FRAL) and User-to-Network Interface Termination (UNIT) installed. Primary location failure can be caused by either failure in TelCove's controlled switch equipment and facilities or customer owned equipment.

F. Committed Information Rate (CIR)

Although FRS statistical multiplexing capabilities allow Customer FRS configurations to have aggregate PVC CIRs which are greater than the associated port speed, the actual throughput of aggregated PVC CIRs in use at any time on the same port cannot exceed the port speed.

A Customer's data throughput may burst up to the Customer's subscribed port speed; however, when data exceeds the CIR, the potential for discard exists. It is recommended that a customer subscribe to a CIR no greater than half of their port speed; however, due to the nature of a specific Customer's traffic characteristics, a larger CIR can be accommodated, as indicated below.

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.15 FRAME RELAY SERVICE (FRS) (Cont'd)

5.15.2 Service Elements (Cont'd)

F. Committed Information Rate (CIR) (Cont'd)

The Customer's CIR should be closely matched with the Open System Interconnection (OSI) Model or equivalent Application and Network Layer protocols for the data application utilized.

CIR Options for Permanent Virtual Circuits range from 8K to 1024K, in increments of 8K. It is recommended that the CIR equal 25% of the port speed. A minimum ration of 8K of CIR for every 64K of port speed is required.

D. Mileage (Type 2 Service Only)

A recurring rate for mileage for Type 2 Service, based on the speed of the Access Link, will apply in those instances where the Company incurs a mileage charge from the LEC to provide the service requested. The mileage charged will be based on airline distance, according to the standards set by the Local Exchange Company.

E. Service Order Charge

A Service Order Charge applies, except as specified elsewhere in this tariff, for work involved in receiving, recording, transmitting and acting upon Customer requests to connect, move or change services. This would include changes to or addition of PVC's.

A Service Order Charge does not apply to a Customer initiated requests to: Completely terminate service or to change responsibility for the service.

5.16 INTEGRATED ACCESS SERVICE (IAS)

IAS is a communications service that provides a combination of local and data services to small and medium businesses using on-net services. The Customer must purchase, at the same customer location, local exchange access services, (measured or flat-rated), and Dedicated Data Bandwidth services from the Company.

IAS allows a Customer to integrate voice and data services on a single high capacity facility. The standard configuration involves having a single DS-1 to the Customer's premise. The Customer selects a package of 5-8, 9-12, 13-16, or 17-20 voice lines for local exchange access. The balance of the facility's capacity is available for data applications.

One-year, Two-year, and Three-year service term packages are available -- Customer must, at a minimum, sign a one-year service term agreement to qualify for IAS pricing. The rates herein are for multi-line business service, the Dedicated Data Bandwidth connection, and appropriate End User Common Line Charges (EUCL). Per minute charges associated with IAS will be measured usage, if applicable.

A. Basic Voice Line Features:

Each IAS voice line includes the following features with no additional monthly recurring charges:

- Call Forwarding Busy
- Call Forwarding Don't Answer
- Call Forwarding Variable
- Call Waiting Terminating
- Caller ID Name and Number
- Directory Listing
- Speed Call One Digit (8 numbers)
- Three Way Calling
- Touch Tone

[X]

[X] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelphia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

1. Callback Feature Package:
 - Automatic Recall
 - Automatic Callback
 - Call Trace

2. Selective Call Features Package:
 - Selective Call Acceptance
 - Selective Call Forward
 - Selective Call Rejection
 - Selective Distinctive Alert

Monthly rates and non-recurring charges for this service appear in Section 13 of this Tariff.

C. Conversion and renewal of Term Contracts

1. Prior to expiration of the service period, Customers may convert an existing term agreement to a new term agreement at current tariff rates without incurring termination charges provided the period for the new term agreement is equal to or greater than the original term agreement. Customers converting to a new service term will be required to sign a new Customer Service Agreement. Conversion and renewal, as described in this section, applies to both the initial Service Agreement and any subsequent Service Agreements (extended service terms) executed by the Customer for this service provided that the Agreements continue without interruption.

2. Customer must provide TelCove with written notice of intent to renew an existing initial service period no later than 90 days prior to the expiration of the initial service period. The Service Agreement will renew at the tariffed rates in effect at the time of the renewal.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. [X]

Section 5 - SUPPLEMENTAL SERVICES (Cont'd)

5.16 INTEGRATED ACCESS SERVICE (IAS) (Cont'd)

D. Termination of Term Contracts

1. The Customer must provide TelCove with a written notice of intent to renew an existing or extended service agreement no later than 90 days prior to the expiration of the existing contract.
2. If the Customer elects not to renew the Service Agreement or does not notify TelCove of intent to renew, the service will then automatically be billed under the tariffed rates for the service term package in effect on the date the initial or extended service period expires.
3. In the event the Customer cancels service prior to expiration of the term commitment, an early termination penalty is computed and applied as a lump sum to the Customer's bill as set forth in Section 7.2.7(G).

E. Upgrade in Service

1. Customer may upgrade Service Term Agreement (add additional lines, which may result in reducing the Dedicated Bandwidth Speeds) without incurring termination charges provided all of the following conditions are met:
 - a. The new service arrangement is provided to the same customer at the same location as the discontinued service arrangement, and
 - b. Customer's request for discontinuance of the existing service arrangement and request for the new service arrangement are received at the same time.

If the order to upgrade service does not meet the conditions above, it will be treated as a disconnection of the existing service and establishment of a new service. All termination charges will then apply.

F. Moves to a New Location

A Customer with an existing Service Term Agreement may request a move of the service to a new location, or a move and an upgrade, or a move and a change of Service Term Agreement so long as the entire Integrated Access Service is moved. Termination charges will not apply.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers who remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. G. Termination Charges

Customers requesting to discontinue services provided under a Service Term prior to the expiration of the Initial Service Period or Extended Service Period will incur termination charges pursuant to subsections 1 and 2 below, as applicable. Payment of the termination charges for Integrated Access does not release the customer from other previous amounts owed to TelCove. If special construction was applied to the service being terminated, any termination charges associated with the special construction will apply in addition to the termination charges for early termination of the Initial Service Period or the Extended Service Period.

1. Termination Charges for the Initial Service period shall be the lesser of:

- a. The difference between the recurring rates and non-recurring charges for the completed months of the initial Service Term at the time of termination and the current recurring rates and non-recurring charges for the next lower Service Term actually completed; or,
- b. The sum of the monthly recurring payments remaining on the Service Term.

2. Termination Charges for the Extended Service Period shall be the lesser of:

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelphia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. Section 6 - RESIDENTIAL NETWORK SWITCHED SERVICES

6.1 GENERAL

Residential Network Switched Service provides a residential customer with a connection to the Company's switching network which enables the customer to:

- a. place and receive calls from other stations on the public switched telephone network;
- b. access the Company's local calling service;
- c. access the Company's operators and business office for service related assistance; access toll-free telecommunications services such as 800 NPA; and access 911 service for emergency calling; and
- d. access the service of providers of interexchange service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive toll-free service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (10-10XXX). At the time of initial subscription, the customer shall designate a Primary Interexchange Carrier (PIC) for intra-LATA and inter-LATA toll service. If the customer does not select an intra-LATA PIC, and does not request blocking of intra-LATA toll calls, the Company shall be deemed to have been designated as the customer's intra-LATA PIC.

Section 7 - BUSINESS NETWORK SWITCHED SERVICES

7.1 GENERAL

Business Network Switched Service provide a business customer with a connection to the Company's switching network which enables the customer to:

- a. receive calls from other stations on the public switched telephone network;
- b. access the Company's local calling service;
- c. access the Company's operators and business office for service related assistance; access toll-free telecommunications service such as 800 NPA; and access 911 service for emergency calling; and
- d. access the service of providers of interexchange service or intraLATA toll service. A customer may presubscribe to such provider's service to originate calls on a direct dialed basis or to receive toll-free service from such provider, or may access a provider on an ad hoc basis by dialing the provider's Carrier Identification Code (10-10XXX). At the time of initial subscription, the customer shall designate a Primary Interexchange Carrier (PIC) for intra-LATA and inter-LATA toll service. If the customer does not select an intra-LATA PIC, and does not request blocking of intra-LATA toll calls, the Company shall be deemed to have been designated as the customer's intra-LATA PIC.

Business Network Switched Service is provided via one or more channels terminated at the customer's premises. Each Business Network Switched Service channel corresponds to one or more analog, voice-grade telephonic communications channels that can be used to place or receive one call at a time.

Connection charges as described in Section 3 apply to all service on a one-time basis unless waived pursuant to this Tariff.

7.2.1 Basic Business Line Service

a. General

Basic Business Line Service provides a customer with a one or more analog, voice-grade telephonic communications channel that can be used to place or receive one call at a time. Local calling service is available at a flat rate included in the line price, or on a measured usage basis. Basic Business Lines are provided for connection of customer-provided single-line terminal equipment such as station sets or facsimile machines.

The following Advanced Features are available at an additional charge:

Voice Messaging
Basic Voice Mail Package
Enhanced Voice Mail Package
6-Way Conference Calling
Pager Notification

Fax Mail
Auto Attendant
Unified Messaging
Sub Mail Boxes

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.3 PBX Trunk Service

a. General

Trunk lines connect the central office with a customer-premises PBX system or other customer-provided equipment and systems that select and seize a vacant line for incoming and outgoing calls at its premises. Trunk lines do not terminate directly on a phone set. They terminate in either the attendant position, or in the PBX common equipment. The customer's system can be programmed to eliminate the need to go through the attendant by routing calls directly to or from individual numbers.

Dial-type PBXs may terminate inward, outward, or two-way trunk lines. Manual PBXs terminate only two-way trunk lines.

Trunks can be configured for three types of service, based on the direction that calls are transported between the central office and customer-premises:

Inward-only service provides for one-way calling from the central office switch to the customer-premises equipment. Depending on how the customer programs its system to route calls, an inward call can terminate at either the dialed number (called DID, for Direct Inward Dialing) or at the attendant position (called non-DID). Outgoing calls cannot be made over a trunk with inward-only service. For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

Canonsburg, Pennsylvania 15317

Section 7 - BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.3 PBX Trunk Service (Cont'd)

a. General (Cont'd)

Outward-only service provides for one-way calling from the customer-premises equipment to the central office switch. Depending on how the customer programs its system to route calls, a vacant outgoing line can be accessed either directly from the calling line (called DOD, for Direct Outward Dialing, typically invoked by dialing "9"), or from the attendant position (called non-DOD). Incoming calls cannot be received over a trunk with outward-only service.

Combination service provides for two-way calling between the central office switch and customer-premises equipment. Depending on how the customer programs its system to route calls, inward calls can be either DID or non-DID, and outward calls can be either DOD or non-DOD. Since most combination trunks provide for DID and DOD calling, and they are often referred to as DIOD (Direct Inward/Outward Dialing) trunks.

For DID configured PBX trunks additional charges apply for Direct Inward Dial Station numbers.

Each DS0 level Trunk has the following characteristics:

Terminal Interface: 2-wire or 4-wire, as required for the provision of service

Signaling Type: Loop, Ground, E&M I, II, III

Pulse Type: Dual Tone Multi-Frequency (DTMF) or Dial Pulse (DP)

Calling Direction: One-way inward-only, one-way outward-only, or two-way inward and outward

7.2.4 Centrex-type Service

a. Description

Centrex-type Service is a multi-station system offered to the business customer with 4 or more lines or trunks. It consists of digital switching equipment in the Company's switches connected to station lines on the customer's premises. Centrex-type Service enables the customer to originate and receive local calls within its system at no additional charge. Local measured usage charges apply to all other local calls. Local calling areas are as specified in Section 12.

Centrex-type Service is offered on a contracted basis with four terms: 24, 36, 60 and 84 months. Thirty days prior to the expiration of the contract term, the subscriber may cancel service or renew for a new term commitment. If the subscriber does not cancel or renew the service, service will continue on a month to month basis at the monthly rate associated with the twenty-four month term plan.

Each Centrex-type Station Line has the following characteristics:

Terminal Interface: 2-Wire or 4-Wire as required for the provision of service

Signaling Type: Loop Start

Pulse Type: Dual Tone Multi-Frequency (DTMF)

Canonsburg, Pennsylvania 15317

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.4 Centrex-type Service (Cont'd)

c. Recurring and Nonrecurring Charges

In addition to the nonrecurring charges listed in Section 13 of this tariff, service order charges apply as described in Section 3 of this tariff. In certain circumstances, service to customers may require the use of a link (and, or) number portability arrangements provided by the Incumbent Local Exchange Carrier. In such circumstances, the monthly recurring charge to the customer will be the greater of the company's Base Service Line charge set forth below or the charge to the company by the Incumbent Local Exchange Carrier for the link used to serve the customer. If the customer is served through a Number Portability Arrangement, the monthly charge to the customer will be increased by the applicable charge from the Incumbent Local Exchange Carrier to the Company of the Number Portability Arrangement.

d. Digital Centrex-Type Service

Digital Centrex-type is a telephone service provided through *the public switched telephone network* (PSTN) via ISDN *basic rate interface* (BRI) lines. BRI provides a capability of up to three digital channels, two bearer (B) channels and 64 Kbps, and one data (D) channel at 16 Kbps. BRI is also commonly known as 2B+D. The B channels are capable of carrying voice, data, image, or video transmissions. The D Channel is used for out-of-band signaling or data transmission. Digital Centrex-type Service is provided via the *central office* (CO) of the local Telephone Company. Business Line charges apply in addition to the digital centrex charges as found in the rates and charges section. An *Individualized dialing plan* (IDP) is offered with digital Centrex-type service that incurs a common equipment charge. An IDP allows for four-digit dialing between Centrex-type stations defined within the same IDP group. Default features are provided through Digital Centrex-type service to the customer such as transfer and 3-way conference calling. Enhanced features are also available for an additional charge. These features are charged on a per feature basis. Digital Centrex-type service provides telephone system capabilities through the CO, eliminating the need for customer premise switching equipment.

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.5 Term Liability/Termination Charges

Several of the services offered above are available at reduced prices if the Customer agrees at the time the order is placed to continued service for a specified period of time ("term"). If the Customer terminates service prior to the end of the term, in part or in whole, then termination charges may apply. If a customer disconnects service prior to the fulfillment of the term plan contracted, then a termination liability will be due to Company from Customer. The termination liability charge will be the difference between the monthly rate for the highest term period which could have been satisfied prior to service discontinuance and the monthly rate for the selected commitment period multiplied by the actual number of months the plan has been in effect. The monthly rates used for this calculation will be those in effect at the time the service is disconnected.

7.2.6 Integrated Services Digital Network – Basic Rate Interface (ISDN-BRI)

Integrated Services Digital Network (ISDN) is an international standard for dial-up digital transmission over a public telephone network. Its stated purpose is to deliver more bandwidth to the end user than analog by moving the signaling out of band and delivering a host of new services to users. The BRI, also known as 2B+D, consists of two bearer and one data channel. Each bearer channel represents a 64kbps channel and each data channel represents a 16 kbps signaling and control data stream. The B channels carry voice, data, image or videos. The D channel corrects any errors that may occur in the transmission, and makes it possible to carry on a conversation and work on the internet at the same time on the same line. Business Line charges apply in addition to the ISDN BRI charges as found in the rates and charges section. Personal modems and fax machines use ISDN-BRI lines. This service is delivered over a T1 circuit and requires a T1 board.

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.2 SERVICE DESCRIPTIONS AND RATES (Cont'd)

7.2.7 Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI)

(1) Description

ISDN is a single integrated digital telecommunications network architecture which provides for the simultaneous access, transmission and switching of voice data and image services via channelized transport facilities over a set of standard multipurpose user-network interfaces. PRI governs the connectivity between switching equipment (network or customer) and customer equipment and allows voice and data services, simultaneously while supporting circuit-switched and packet-switched connections.

The ISDN-PRI feature supports a 64 kb/s D-channel path between customer digital PBX equipment and the protocol handler in a PSU of the 5ESS1 switch. This path is made up of a dedicated time slot between channel 24 on a digital facility interface (DFI) and the assigned protocol handler. This feature also provides the administration software for up to 23 B-channels associated with a D-channel in the same T1 facility (1.544 Mb/s for domestic). This interface supports both ISDN PBXs and host computers.

(i) Features

Call-by-Call Service – Provides the ability for the Dedicated B-channel(s) to be configured to access multiple tariffed services on a per-call basis. The customer premises equipment signals the local central office as to what type of services to access for each call.

Remote NXX – Collects calls to an ISP from a large geographical area, concentrates these calls at one TelCove switch, then routes them to the ISP's PRI trunk group for delivery to the ISP's router. All traffic is one-way inbound. All calls are intraLATA. Remote NXX is available only to ISPs. [T]

PRI 2 B Channel Transfer – Enables a user on a PRI to request that two independent calls be connected. The two calls may be served by the same PRI or by two different PRI's that both serve the customer. [N]

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.3 Miscellaneous Service Arrangements

[N]

7.3.1 211 Dialing Service

7.3.1.1 General

- A. 211 Dialing Service ("211") is a three digit local dialing arrangement available in specified areas for delivery of general information via voice grade facilities, for community information and referral services. Pursuant to Order 00-256, issued by the Federal Communications Commission (FCC) in CC Docket 92-105, the 211 code is assigned for access to community information and referral services. In addition, the 211 subscriber must comply with any orders and rules pertaining to 211, adopted by the FCC in rulemaking proceeding CC Docket 92-105.
- B. 211 is available subject to availability. To provide access to a 211 number to end users in an independent company territory or to a CLEC's end users within the local calling area, the 211 subscriber must make appropriate arrangements with the independent company or CLEC serving that territory.
- C. The Local Calling Area of the 211 subscriber will be the Basic Local Calling Area as defined in this tariff, as facilities permit. If local calling areas are merged, and a 211 number exists in both areas, the 211 subscriber who established the 211 Service first in time will be entitled to retain the 211 number in the merged calling area.
- D. This service is furnished subject to the availability of the 211 number.
- E. 211 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.).
- F. Limitations and use of service as stated in this tariff apply.
- G. Directory Listings may be provided for 211 at rates and regulations as specified in this tariff.
- H. Access to 211 is not available to the following classes of service:
- Hotel/Motel/Hospital Service
 - 1+
 - 0+, 0- (Credit Card, Third-Party Billing, Collect Calls)
 - Inmate Service
 - 101XXXX
 - Cellular – Type 2A

In addition, operator assisted calls to the 211 subscriber will not be completed.

- I. The 211 subscriber is restricted from selling or transferring the 211 number to an unaffiliated entity, either directly or indirectly.

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.3 Miscellaneous Service Arrangements (Cont'd)

[N]

7.3.1 211 Dialing Service (Cont'd)

7.3.1.1 General (Cont'd)

- J. An "affiliate" of a 211 subscriber is any entity that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, the 211 subscriber. The term "control" (including the terms "controlling", "controlled by:", and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract, or otherwise.
If a 211 subscriber becomes an affiliate of or is acquired by another 211 subscriber through a merger, acquisition, or otherwise, then the affiliated subscribers must surrender all but one 211 number within 6 months of the merger or acquisition.
- K. 211 will not provide calling number information in real time to the 211 subscriber. If the 211 subscriber needs this type of information, the 211 subscriber must subscribe to a compatible Calling Number Identification service.
- L. Calls to a disconnected 211 number will be routed to intercept of the announcement facilities for a maximum of 60 days, when the 211 provider is a Company subscriber. The announcement provided may refer the caller to another telephone number.

7.3.1.2 Service Requirements and Conditions

- A. All requests for 211 must be submitted in writing to the Company for assignment of 211. The Company will allocate 211 Dialing Service numbers in the specified Basic Local Calling Areas (BLCAs) pursuant to non-discriminatory procedures approved by the Company.
- B. The Company will provision the subscriber's order within a reasonable time, given the complexity of the order. The 211 subscriber will be billed the nonrecurring charge when the service is provisioned by the Company. If during this period, the 211 subscriber has failed to establish service or decides to discontinue service establishment, the 211 number will be recalled and the number will be considered available for reassignment. If the network has been provisioned for the subscriber, the nonrecurring charges will not be refunded or waived.

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.3 Miscellaneous Service Arrangements (Cont'd)

[N]

7.3.1 211 Dialing Service (Cont'd)

7.3.1.2 Service Requirements and Conditions (Cont'd)

- C. The 211 subscriber, must prior to provisioning of the service, sign a written acknowledgement of possible recall of the 211 number by the FCC and an agreement to return the code upon receipt of 6 months written notice of such a recall from the Company and abide by all terms and conditions contained in Order 00-256 issued, any subsequent rules which may be identified by the FCC in CC Docket 92-105 regarding the use and return of such 211 codes. If a recall is affected, the Company will work with all 211 subscribers affected by such recall to transfer their service arrangements, to a 7 or 10 digit dialing arrangement within the 6 month notice period. The 211 subscriber will be required to migrate to any standard access arrangement for information services subsequently agreed to by the industry and approved by the FCC. The 211 subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.
- D. Only one 7 or 10-digit local number or one 7 or 10-digit toll free number may be used as the lead number per basic local calling area. All central offices within a basic local calling area must be pointed to the same 7 or 10-digit local number or one 10-digit toll free number. Appropriate rates will apply.
- E. The 211 Dialing Service is provided where facilities permit.
- F. The 211 subscriber should work separately with cellular companies to ascertain whether Type 1 cellular customers will be able to reach community information and referral services provided by dialing 211.
- G. The 211 subscriber should work separately with competing local exchange providers to ascertain that its end user customers will be able to reach community information and referral services provided by dialing 211.
- H. 211 will be provided under the following conditions:
 - 1. For network sizing and protection, the 211 subscriber must provide an estimate of annual call volumes, the expected busy hour and holding time for each call to 211.

7.3.1 211 Dialing Service (Cont'd)

7.3.1.2 Service Requirements and Conditions (Cont'd)

H. (Cont'd)

2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to 211 without impairing the Company's general telephone service or telephone plant. It will be the intent of the Company to provide facilities designated to provide a call blocking probability of one call per hundred during normal busy hours for 211 Dialing Service.
3. The 211 subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements, or performance are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.
4. The 211 subscriber shall be liable for, and shall indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and of all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connections therewith, including, but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, of any patent, trademark, copyright, or resulting from any claim of liable and slander.
5. Suspension of 211 Dialing Service as covered in the General Rules and Regulations section of this tariff is not applicable for this service.
6. The 211 subscriber shall respond promptly to any and all complaints lodged with any regulatory authority against any service provided via 211. If requested by the Company, the 211 subscriber shall assist the Company in responding to complaints made to the Company concerning the subscriber's 211 service.
7. A written notice will be sent to any 211 subscriber following oral notification when their service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of 211. If after notification the subscriber makes no modification in method of operation or in the service

- 7. (Cont'd) arrangements that are deemed service-protective by the Company, or if the subscriber is unwilling to accept the modifications, or if the subscriber continues to cause service impairment, the Company reserved the right, at any time, without further notice, to institute protective measure, up to and including termination of service. In an emergency situation as defined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures up to and including termination of service.
- I. If a pre-recorded announcement is provided by the 211 subscriber, the following conditions apply:
 - 1. The 211 subscriber will provide announcements. The Company will provide only the delivery of the call.
 - 2. 211 subscriber's sponsorship of any particular announcement of recorded program service shall not preclude another 211 subscriber from sponsoring the same or similar announcement or recorded program service.
 - 3. The provision of access to the 211 network by the Company for the transmission of announcement or recorded program services is subject to availability of such facilities and the requirements of the local exchange network.
 - 4. The 211 subscriber assumes all financial responsibility for all costs involved in providing announcement or recorded program services including, but not limited to, the recorder-announcement equipment producing the recording, advertising and promotional expenses.
 - 5. The 211 subscriber assumes, according to other specific rates and charges under tariff, all financial responsibility for all facilities required to connect the recorder-announcement equipment located on the subscriber's premises.
- J. The Company may take all legal and practical steps to disassociate itself from 211 subscribers providing services whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Company's discretion generates unacceptable levels of complaints by end users.

7.3.1 211 Dialing Service (Cont'd)

7.3.1.2 Service Requirements and Conditions (Cont'd)

K. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission or failure of performance by the Company, or its employees, or agents, in connection with this tariff. The Company shall not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment owned or leased by the subscriber.

7.3.1.3 Obligations of the Local Exchange Carrier

- A. In those instances where another carrier provides 211 access to its end user within the local calling area, terms and conditions for 211 Dialing Service are as defined in the appropriate Interconnection Agreement.
 - 1. For purposes of providing a carrier end user access to the 211 provider within the local calling area, appropriate arrangements must be made by the carrier with the 211 provider serving the local calling area.
 - 2. A carrier may negotiate the provision of directory listings as defined in the Interconnection Agreement.

7.3.1.4 Rates and Charges

- A. Application of Rates
 - 1. A Service Establishment charge shall apply per basic local calling area.
 - 2. 211 subscribers will pay the normal tariffed charges for the local exchange access arrangements (PBX trunks, Centrex-type service lines, etc.) used for transporting and terminating messages at the 211 subscriber's designated premises.
 - 3. Applicable service order charges as specified in this tariff will apply, in addition to the following rates.
 - 4. A Central Office Activation charge will apply per central office switch translated to the lead number.
 - 5. A charge will apply to changes to the point-to number at the subscriber's request, per 211 Dialing Service, per central office switch within the basic calling area.

B. Charges applicable to the 211 Dialing Service Subscriber

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.3 Miscellaneous Service Arrangements (Cont'd)

7.3.2 311 for Non-Emergency Municipal Use

7.3.2.1 General

- A. 311 for Non-emergency Municipal Use ("311") is a three digit local dialing arrangement available in specified areas for delivery of general information via voice grade facilities. The Federal Communications Commission (FCC) in CC Docket 92-105, assigned the 311 code for access to non-emergency police and other government agencies. The 311 subscriber must comply with any orders and rules pertaining to 311, adopted by the FCC in rulemaking proceeding CC Docket 92-105. Eligible customers that have already received 311 pursuant to the FCC requirements will be considered to be the assignee.
- B. 311 is available subject to availability. To provide access to 311 to end users in an independent company territory or to a CLEC's end users per central office switch, the 311 subscriber must make appropriate arrangements with the independent company or CLEC serving that territory. The 311 subscriber should work separately with competing local providers to ascertain that its end user customers will be able to reach non-emergency police and other governmental agencies by dialing 311.
- C. 311 will be assigned to the subscriber on a central office-by-central office basis, as facilities permit. If central offices are merged, and a 311 "point-to" number exists in both central offices, the 311 subscriber who established 311 first in time will be entitled to retain the 311 "point-to" number in the merged central office.
- D. 311 for Non-Emergency Municipal Use is subject to the availability of 311 as an abbreviated dialing code and will be deployed on a "first come, first served" basis.
- E. 311 for Non-Emergency Municipal Use can be accessed via regular exchange access lines (by individual business lines, PBX trunks, etc.) unless such lines invoke N11 dialing restrictions or other customized dialing restrictions.
- F. Limitations and use of service as stated in this tariff apply.
- G. Directory Listings may be provided for 311 for Non-Emergency Municipal Use at rates and regulations as specified in this tariff.

- J. The Company may take all legal and practical steps to disassociate itself from 311 subscribers providing services whose business and/or public conduct (whether demonstrated or proposed) is of a type that in the Company's discretion generates unacceptable levels of complaints by end users.
- K. In no event shall the Company be liable for any losses or damages of any kind resulting from the unavailability of its equipment or facilities or for any act, omission or failure of performance by the Company, or its employees, or agents, in connection with this tariff. The Company shall not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment owned or leased by the subscriber.
- L. The municipality ordering the service must establish procedures to deal with calls from those within the central office but outside of their jurisdiction.

7.3.2.3 Obligations of the Local Exchange Carrier

- A. In those instances where another carrier provides 311 access to its end user per central office switch, terms and conditions for 311 are as defined in the appropriate Interconnection Agreement.
 - 1. For purposes of providing a carrier end user access to the 311 subscriber per central office switch, appropriate arrangements must be made by the carrier with the 311 subscriber.
 - 2. A carrier may negotiate the provision of directory listings as defined in the Interconnection Agreement.

7.3.2.4 Rates and Charges

A. Application of Rates

- 1. A Service Establishment charge shall apply per central office.
- 2. 311 subscribers will pay the normal tariffed charges for the local exchange access arrangements (PBX trunks, Centrex-type service lines, etc.) used for transporting and terminating messages at the 311 subscriber's designated premises.
- 3. Applicable service order charges as specified in this tariff will apply, in addition to the following rates.
- 4. A Central Office Activation charge will apply per central office switch translated to the lead number.
- 5. A charge will apply to changes to the point-to number at the subscriber's request, per 311 Dialing Service per central office switch.

B. Charges applicable to the 311 Non-Emergency Municipal Use Subscriber

[N]

7.3.3 511 Dialing Service

7.3.3.1 General

- A. 511 Dialing Service ("511") is a three digit local dialing arrangement available in specified areas for delivery of general information via voice grade facilities. Pursuant to Order 00-256, issued by the Federal Communications Commission (FCC) in CC Docket 92-105, the 511 code is assigned for access to travel information services. In addition, the 511 subscriber must comply with any orders and rules pertaining to 511, adopted by the FCC in rulemaking proceeding CC Docket 92-105.
- B. 511 is available subject to availability. To provide access to 511 to end users in an independent company territory or to a CLEC's end users within the local calling area, the 511 subscriber must make appropriate arrangements with the independent company or CLEC serving that territory. The 511 subscriber should work separately with competing local providers to ascertain that its end user customers will be able to access travel information services provided by 511.
- C. The Local Calling Area of the 511 subscriber will be the Basic Local Calling Area as defined in this tariff, as facilities permit. If local calling areas are merged, and a 511 number exists in both areas, the 511 subscriber who established the 511 Service first in time will be entitled to retain the 511 number in the merged calling area.
- D. This service is furnished subject to the availability of 511 numbers.
- E. 511 can be delivered via regular exchange access lines (by individual business lines, PBX trunks, etc.).
- F. Limitations and use of service as stated in this tariff apply.
- G. Directory Listings may be provided for 511 at rates and regulations as specified in this tariff.
- H. Access to 511 is not available to the following classes of service:
- Payphone Service Provider Telephones (PSPs)
 - Hotel/Motel/Hospital Service
 - 1+
 - 0+, 0- (Credit Card, Third-Party Billing, Collect Calls)
 - Inmate Service
 - 101XXXX
 - Cellular – Type 2A

In addition, operator assisted calls to the 511 subscriber will not be completed.

Section 7 – BUSINESS NETWORK SWITCHED SERVICES (Cont'd)

7.3 Miscellaneous Service Arrangements (Cont'd)

[N]

7.3.3 511 Dialing Service (Cont'd)

7.3.3.1 General (Cont'd)

- I. The 511 subscriber is restricted from selling or transferring the 511 code to an unaffiliated entity, either directly or indirectly.
- J. An "affiliate" of a 511 subscriber is any entity that directly, or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, the 511 subscriber. The term "control" (including the terms "controlling", "controlled by:", and "under common control with") means the possession, direct or indirect, of the power to direct or cause the direction of the management and policies of an entity, whether through the ownership of voting securities, by contract, or otherwise.
If a 511 subscriber becomes an affiliate of or is acquired by another 511 subscriber through a merger, acquisition, or otherwise, then the affiliated subscribers must surrender all but one 511 number within 6 months of the merger or acquisition.
- K. 511 will not provide calling number information in real time to the 511 subscriber. If the 511 subscriber needs this type of information, the 511 subscriber must subscribe to a compatible Calling Number Identification service.
- L. Calls to a disconnected 511 number will be routed to intercept of the announcement facilities for a maximum of 60 days, when the 511 provider is a Company subscriber. The announcement provided may refer the caller to another telephone number.

7.3.3.2 Service Requirements and Conditions

- A. All requests for 511 must be submitted in writing to the Company for assignment of 511. The Company will allocate 511 Dialing Service numbers in the specified Basic Local Calling Areas (BLCAs) pursuant to non-discriminatory procedures approved by the Company.
- B. The Company will provision the subscriber's order within a reasonable time, given the complexity of the order. The 511 subscriber will be billed the nonrecurring charge when the service is provisioned by the Company.

If during this period, the 511 subscriber has failed to establish service or decides to discontinue service establishment, the 511 number will be recalled and the number will be considered available for reassignment. If the network has been provisioned for the subscriber, the nonrecurring charges will not be refunded or waived.

7.3 Miscellaneous Service Arrangements (Cont'd)

[N]

7.3.3 511 Dialing Service (Cont'd)

7.3.3.2 Service Requirements and Conditions (Cont'd)

- C. The 511 subscriber, must prior to provisioning of the service, sign a written acknowledgement of possible recall of the 511 number and an agreement to return the code upon receipt of 6 months written notice of such a recall from the Company and abide by all terms and conditions contained in Order 00-256 issued, any subsequent rules which may be identified by the FCC in CC Docket 92-105 regarding the use and return of such 511 codes. If a recall is affected, the Company will work with all 511 subscribers affected by such recall to transfer their service arrangements, to a 7 or 10 digit dialing arrangement within the 6 month notice period. The 511 subscriber will be required to migrate to any standard access arrangement for information services subsequently agreed to by the industry and approved by the FCC. The 511 subscriber will be charged the appropriate tariff rates for the establishment of the new access arrangement.
- D. Only one 7 or 10-digit local number or one 10-digit toll free number may be used as the lead number per basic local calling area. All central offices within a basic local calling area must be pointed to the same 7 or 10-digit local number or one 10-digit toll free number. Appropriate rates will apply.
- E. The 511 Dialing Service is provided where facilities permit.
- F. The 511 subscriber should work separately with cellular companies to ascertain whether Type 1 cellular customers will be able to reach travel information services provided by dialing 511.
- G. The 511 subscriber should work separately with competing local exchange providers to ascertain that its end user customers will be able to reach travel information services provided by dialing 511.
- H. 511 will be provided under the following conditions:
 - 1. For network sizing and protection, the 511 subscriber must provide an estimate of annual call volumes, the expected busy hour and holding time for each call to 511.
 - 2. The customer will subscribe to adequate telephone facilities initially and subsequently as may be required, in the judgment of the Company, to adequately handle calls to 511 without impairing the Company's general telephone service or telephone plant. It will be the intent of the Company to provide facilities designated to provide a call blocking probability of one call per hundred during normal busy hours for 511 Dialing Service.

3. The 511 subscriber is responsible for obtaining all necessary permission, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements, or performance are used in connection with the service, and from all holders of copyrights, trademarks, and patents used in connection with said service.
4. The 511 subscriber shall be liable for, and shall indemnify, protect, defend and save harmless the Company against all suits, actions, claims, demands and judgments, and of all costs, expenses and counsel fees incurred on account thereof, arising out of and resulting directly or indirectly from the service or in connections therewith, including, but not limited to, any loss, damage, expense or liability resulting from any infringement or claim of infringement, of any patent, trademark, copyright, or resulting from any claim of liable and slander.
5. Suspension of 511 Dialing Service as covered in the General Rules and Regulations section of this tariff is not applicable for this service.
6. The 511 subscriber shall respond promptly to any and all complaints lodged with any regulatory authority against any service provided via the 511 number. If requested by the Company, the 511 subscriber shall assist the Company in responding to complaints made to the Company concerning the subscriber's 511 service.
7. A written notice will be sent to any 511 subscriber following oral notification when their service unreasonably interferes with or impairs other services rendered to the public by the Company or by other subscribers of 511. If after notification the subscriber makes no modification in method of operation or in the service arrangements that are deemed service-protective by the Company, or if the subscriber is unwilling to accept the modifications, or if the subscriber continues to cause service impairment, the Company reserved the right, at any time, without further notice, to institute protective measure, up to and including termination of service. In an emergency situation as defined by the Company, the Company reserves the right, at any time, without notice, to institute protective measures up to and including termination of service

121 Champion Way
Canonsburg, Pennsylvania 15317

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES

8.1 INTRALATA TOLL USAGE AND MILEAGE CHARGES

Description

IntraLATA toll service is furnished for communication between telephones in different local calling areas within a particular LATA in accordance with the regulations and schedules of charges specified in this tariff. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff.

IntraLATA toll calling includes the following types of calls: direct dialed, calling card, collect, 3rd number billed, special toll billing, requests to notify of time and charges, person to person calling and other station to station calls.

8.1.1 Classes of Calls

Service is offered as two classes: station to station calling and person to person calling.

1. Station to Station Service is that service where the person originating the call dials the telephone number desired or gives the Company operator the telephone number of the desired telephone station or system.
2. Person to Person Service is that service where the person originating the call specifies to the Company operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached. The call remains a person to person call when, after the telephone, mobile telephone, or PBX system has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other agreed upon alternate.

Canonsburg, Pennsylvania 15317

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.1.2 TIMING OF CALLS

- A. Unless otherwise indicated, all calls are timed in one minute increments and all calls which are fractions of a minute are rounded up to the next whole minute.
- B. For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.
- C. For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.
- D. Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- E. Calls originating in one time period as defined in Section 8.3 and terminating in another will be billed the rates in effect at the beginning of each minute.
- F. All times refer to local time.

Canonsburg, Pennsylvania 15317

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.1.3 REGULATIONS AND COMPUTATION OF MILEAGE

Calls for which rates are mileage sensitive are rated on the airline distance between the originating rate center and the terminating rate center.

A. Originating Rate Center

A customer's primary local exchange number includes an NXX code that is associated with a specific rate center. The originating point of all calls charged to that customer's account shall be the location of the customer's rate center.

B. Terminating Rate Center

The terminating point for all calls shall be the location of the local rate center associated with the called number.

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.1.3 REGULATIONS AND COMPUTATION OF MILEAGE (Cont'd)

C. Calculation of Mileage

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

The distance between any two rate centers is determined as follows:

Airline mileage, where mileage is the basis for rating calls, is obtained by using the "V" and "H" coordinates assigned to each rate center and contained in NECA FCC Tariff No. 4 or successor tariffs. To determine the airline distance between any two locations, proceed as follows:

1. Obtain the "V" and "H" coordinates for each location. The "V" coordinate is the first four digits in the "VH" column. The "H" coordinate is the next four digits.
2. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
3. Square each difference obtained in step b., above.
4. Add the square of the "V" difference and the "H" difference obtained in step c., above.
5. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.1.3 REGULATIONS AND COMPUTATION OF MILEAGE (Cont'd)

C. Calculation of Mileage (Cont'd)

6. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

Formula:

$$\sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

8.1.4 INTRALATA CALL CHARGES

Rates are based on the duration of the call as measured according to Sections 8.2 and 8.3 above, time of day rate period of the call as described in Section 8.2 and the airline mileage between points of the call as described in Section 8.3. In addition, where live or automated operator assistance is required for call completion or billing, a per call service applies.

Charges for all classes of calls may be to the calling station, to the called station when the called party agrees to accept the charges, to an authorized telephone number which is not the called station or the calling station (3rd number billing), or to an authorized calling card.

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2 INTERLATA TOLL SERVICE is furnished for communication between telephones in different LATAs in accordance with the regulations and schedules of charges specified in this tariff.

8.2.1 INTERLATA TOLL USAGE

A. Basic Long Distance – Switched

Basic Switched long distance service is a non-facilities based direct-dial long distance telephone service that is accessed through TelCove's facilities based local service.

B. Long Distance - Stand Alone Switched

Stand Alone Switched long distance is a non-facilities based direct-dial long distance telephone service that is accessed through the customer's local switched service provider.

C. Dedicated Long Distance – offered as ICB only

Dedicated Long Distance is a non-facilities based direct-dial long distance telephone service that is accessed through dedicated connectivity from the customer premise to the long distance point of presence.

8.2.2 INTERLATA CALL CHARGES

InterLATA call charges are based on a postalized per minute usage rate. Charges for all classes of calls may be to the calling station, to the called station when the called party agrees to accept the charges, to an authorized telephone number which is not the called station or the calling station (3rd number billing), or to an authorized calling card.

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.3 LONG DISTANCE FEATURES

The following features are available for all types of long distance services mentioned above.

A. Account Codes

Account Codes enable businesses to categorize long distance charges for purposes of cost allocation and control. TelCove customers have the ability to assign a different number code to each department, product, client, etc., allowing long distance charges to be billed back accordingly. Account Codes are one to five digits long and are available in the following types:

1. Verified Customer LD Account Codes-These codes are assigned by the customer, but managed by the carrier. These codes must be entered for the call to be completed.
2. Verified TelCove LD Account Codes-These codes are pre-assigned and managed by the carrier. The code must be dialed for the call to be completed.
3. Non-Verified LD Account Codes-These codes are set and managed by the customer. The code must be dialed for the call to be completed.

B. Operator Services

All long distance "O" originated calls are routed to long distance operators. A third party handles the actual operator services functions and directly bills the calling customer. The calls are branded by the operator services company and this brand may differ based upon which regional center actually processes the call. The services offered include:

1. Collect Calls – automated or operator assisted
2. Third Number Billing – billed to another number if BNS or verbally approved
3. Person-to-Person – automated or operated assisted

C. Directory Assistance

TelCove offers and bills for directory assistance on a per call basis.

See Rate Schedule in Section 13 of this Tariff.

Section 8 – INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.4 TOLL FREE SERVICE

Toll Free service provides customer with toll free calling to their business locations. Toll free pricing is per minute usage rate for interLATA toll calls. Specialized Number requests are available at a rate of \$35.00 per number reserved.

NASCing (forcing the migration of a toll-free number from another responsible organization) is available at a rate of \$30.00 per occurrence.

A. Basic Toll Free – Switched

Basic Switched Toll Free service is a non-facilities based inbound long distance telephone service that is accessed through TelCove's facilities based local service.

B. Toll Free – Stand Alone Switched

Stand Alone Switched Toll Free service is a non-facilities based inbound long distance telephone service that is accessed through the customer's local switched service provider.

C. Dedicated Toll Free – offered as ICB only

Dedicated Toll Free service is a non-facilities bases inbound long distance telephone service that is accessed through dedicated connectivity from the customer premise to the long distance point of presence.

8.2.5 TOLL FREE SERVICE FEATURES

A. Basic Features for Switched (Basic and Stand Alone) and Dedicated Toll Free Services

1. Area Code Control

Area Code Control allows blocking of incoming calls from selected NPAs. This feature allows customers to limit their toll free service to a geographic area by blocking calls from designated area codes outside the specified calling area.

Section 8 – INTRALATA/INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.5 TOLL FREE SERVICE FEATURES (Cont'd)

A. Basic Features for Switched (Basic and Stand Alone) and Dedicated Toll Free Services (Cont'd)

2. Area Code/Exchange Control

Area Code/Exchange Control allows blocking of incoming calls from selected NPA/NXX combinations. This feature allows customers to limit their toll free service to a geographic area by blocking calls from designated exchanges located outside the specified calling area.

B. Enhanced Features for Switched (Basic and Stand Alone) and Dedicated Toll Free Services

Enhanced Routing Features improve call handling efficiency and productivity by routing traffic among multiple locations. Enhanced routing also provides quick and easy disaster recovery for critical applications. These features are used when more than one terminating number is involved for the toll-free number.

1. Reserved for Future Use

2. Area Code Routing

This feature provides the capability to divide the country into customer-defined routing sets. Calls to the same 800 number are directed to the terminating location based on the originating NPA. It is available to both dedicated and switched toll-free numbers.

Section 8 – INTRALATA/INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.5 TOLL FREE SERVICE FEATURES (Cont'd)

B. Enhanced Features for Switched (Basic and Stand Alone) and Dedicated Toll Free Services (Cont'd)

3. Area Code/Exchange Routing

Used in conjunction with area code routing, this feature allows routing or screening of calls by originating NPA/NXX to multiple service groups/locations. A caller's exchange can be pinpointed with this feature. It can be used to offer a nationwide toll-free number, and route calls to the location nearest the caller.

4. Time of Day Routing

This feature allows the customer to have one toll-free number but route calls to different locations based on the time of day. The customer can take advantage of time zone difference to expand the business day and the route calls to a 24-hour call center when all locations are closed.

5. Day-of-Week Routing

Toll-free calls can be sent to customer-specific destinations, based on the day of the week. For example, if the customers' business days are weekdays, calls on the weekend can be routed to a call center. There also can be a courtesy announcement.

6. Day-of-Year Routing

This feature allows calls to be routed to a different based on the day of the year. The customer can use this feature to route calls to a call center when some locations are closed for the holiday. Based on the specified days, a courtesy announcement tells callers that the location is closed for the holiday.

By: Deputy General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 8 – INTRALATA/INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.5 TOLL FREE SERVICE FEATURES (Cont'd)

B. Enhanced Features for Switched (Basic and Stand Alone) and Dedicated Toll Free Services (Cont'd)

7. Call Allocation

This feature allows customers to define the call routing to multiple service groups/locations on a percentage basis. The percentage is based on call attempts, not completions. Customers can distribute calls to a toll-free number across multiple locations, specify a percentage of the calls for each location, and match the customer's call volume to each location's capabilities.

8. Command Routing

For enhanced toll-free customers, this service provides the ability to activate an alternative route plan (up to 99) within minutes. For example, during severe weather conditions, such as a hurricane, customers can immediately re-route their toll-free number to a location that is not experiencing severe weather

See Rate Schedule in Section 12 of this Tariff

C. Features for Dedicated Toll-Free (These features are only available on Dedicated Toll Free)

1. DNIS (Dialed Number Identification Service) Delivery

Dialed Number Identification Service allows multiple 800 numbers to be identified and routed within a single trunk group, while displaying the number a caller has dialed. This allows the representative to answer the call with a personalized greeting for the type of callers using a specified toll-free number.

2. Real-Time Automatic Number Identification (ANI)

Real-Time ANI delivery is associated with inbound calling applications, offering the originating caller's telephone number to the inbound service subscriber. This feature is provided by the carrier as part of the call set-up.

For In-Band, the signaling information and the voice traffic utilize the same circuits. For Out-of-Band, this signaling allows the signaling information associated with each call to be placed on a separate channel from the voice path. The customer must utilize ISDN with Primary Rate Interface (PRI) service.

Representatives can have the customer's account information available before answering the call. This allows more calls to be handled in a more efficient way.

Section 8 – INTRALATA/INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.5 TOLL FREE SERVICE FEATURES (Cont'd)

C. Features for Dedicated Toll-Free (These features are only available on Dedicated Toll Free) (Cont'd)

3. Route Advance

This feature routes overflow calls to another dedicated circuit (On-net Route Advance) or to local lines (Off-net Route Advance). On-net allows 800 calls that incur a busy or out-of-service condition on a dedicated trunk group to reroute to an alternate dedicated trunk group. This eliminates hang-ups and potential lost business.

4. Uniform Call Distribution (UCD)

This feature permits a uniform distribution of incoming calls among available 800 service access lines within a trunk group. UCD helps alleviate excessive call traffic on first circuits or business lines by distributing particular toll-free calls over a toll-free trunk group. It also can be used to track calls to each circuit and then distribute traffic evenly.

D. Enhanced Features for Dedicated Toll Free

1. DNIS Routing

Enhanced DNIS can be used to route a single 800 number to multiple destinations within a single trunks/service group, and is used in conjunction with other enhanced features.

See Rate Schedule in Section 13 of this Tariff.

9.4 DISCOUNTED SERVICE FOR THE HEARING OR SPEECH IMPAIRED CUSTOMER

9.4.1 General

A handicapped person who has been certified to the Company as having a hearing or speech impairment which requires that he or she communicate over telephone facilities by means other than voice, and who either use non-voice equipment or make calls through an interpreter, will receive, upon application to the Company, a fifty percent (50%) discount on local message rate service.

9.4.2 Certification

Acceptable certifications are:

1. Those made by a licensed physician, otolaryngologist, speech-language pathologist or audiologist or an authorized representative of a social agency that conducts programs for persons with hearing or speech impairment in cooperation with an official agency of the State of Kentucky, or
2. A pre-existing certification establishing the impairment of hearing or speech such as those which qualify the handicapped person for social security benefits on the basis of total hearing impairment or for the use of facilities of an agency for a person with hearing or speech impairment.

9.4.3 Qualification

A customer qualifying for the discount is one whose impairment is such that competent authority would certify him or her as being unable to use a telephone for voice communication. See Section 9.4.2 above for a listing of the necessary qualifications.

9.4.4 Billing

The reduction in charges is applied only at one location, designated by the impaired person.

9.4.5 Surcharge

The following surcharges apply:

TRS/TAP

\$0.04 per line per month*

[R]

* Effective as of June 1, 2009

9.5 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

9.5.1 General

Universal Emergency Telephone Number Service (911 Service) is an arrangement of Company central office and trunking facilities whereby any telephone user who dials the number 911 will reach the emergency report center for the telephone from which the number is dialed or will be routed to an operator if all lines to an emergency report center are busy. If no emergency report center customer exists for a central office entity, a telephone user who dials the number 911 will be routed to an operator. The telephone user who dials the 911 number will not be charged for the call.

9.5.2 Regulations

- a. This service is furnished to municipalities and other governmental agencies only for the purpose of voice reporting of emergencies by the public. For this service, the municipality or government agency(s) designated by the customer as responsible for the control and staffing of the emergency report center is referred to as the "Agency".
- b. When 911 service replaces an existing emergency number, intercept service shall be the responsibility of the Agency. However, if the Agency is unable to provide this service, the operator will intercept and forward requests for emergency aid for a period of at least one year
- c. 911 service is furnished for incoming calls only.

9.5 UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

9.5.3 Conditions of Furnishing Service

This service is offered solely as an aid in handling assistance calls in connection with fire, police, medical, and other emergencies. The Company is not responsible, in the absence of gross negligence or willful misconduct, for any losses, claims, demands, suits, or any liability, whether suffered, made, instituted, or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, and for any loss, damage, or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of such facilities. By dialing 911, the customer agrees to release, indemnify, defend, and hold harmless the Company from any and all loss or claims, whatsoever, whether suffered, made, instituted, or asserted by the destruction of any property, whether owned by the customer or others. Notwithstanding any provision to the contrary, in no event shall the Company be liable for any special, incidental, consequential, exemplary, or punitive damages of any nature whatsoever.

The Company is not responsible for any infringement or invasion of the right of privacy of any person or persons, caused, or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of the 911 service features and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing the 911 service.

9.6 ENHANCED UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE

9.6.1 General

Enhanced Universal Emergency Telephone Number Service (E911 Service) is a Call Delivery Network whereby any telephone user who dials the number 911 will reach a designated Public Safety Answering Point (PSAP). E911 Service is offered in the Company's serving area subject to the availability of stored program control central office facilities, Enhanced 911 software, and ANI equipment. The telephone user who dials the 911 number will not be charged for the call.

9.6.2 Regulations

- a. In addition to the following, the regulations in 9.5.2 apply.
- b. This tariff does not provide for the inspection or constant monitoring of facilities to discover errors, defects, or malfunctions in the service, nor does the company undertake such responsibility. The Agency shall make such operational tests as in their judgment are required to determine whether the system is functioning properly for its use. The Agency shall promptly notify the Company in the event the system is not functioning properly.
- c. E911 information, consisting of the names, addresses, and telephone numbers of all telephone customers, is confidential. The Company will release such information to the Agency periodically for the update of their systems.

9.6 ENHANCED UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE (Cont'd)

9.6.2 Regulations (Cont'd)

- d. The E911 calling party, by dialing 911, waives the privacy afforded by non-listed and non-published service to the extent that the telephone number ("ANI") and address ("ALI") associated with the originating station location are furnished to the PSAP, on a call by call basis, after an E911 call has been received.

- e. Service boundaries of the Company and political subdivision boundaries may not coincide. In the event that the Agency does not subscribe to Selective Routing, it must make arrangements to handle all 911 calls that originate from telephones served by Central offices in the local service areas (i.e., exchange) whether or not the calling telephone is situated on property within the geographical boundaries of the Agency's public safety jurisdiction.

9.6 ENHANCED UNIVERSAL EMERGENCY TELEPHONE NUMBER SERVICE (Cont'd)

9.6.3 Conditions of Furnishing Service

This service is offered solely as an aid in handling assistance calls in connection with fire, police, medical, and other emergencies. The Company is not responsible, in the absence of gross negligence or willful misconduct, including default routing, for any losses, claims, demands, suits, or any liability, whether suffered, made, instituted, or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, and for any loss, damage, or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of such facilities. By dialing 911, the customer agrees to release, indemnify, defend, and hold harmless the Company from any and all loss or claims, whatsoever, whether suffered, made, instituted, or asserted by the destruction of any property, whether owned by the customer or others. Notwithstanding any provision to the contrary, in no event shall the Company be liable for any special, incidental, consequential, exemplary, or punitive damages of any nature whatsoever, including for default routing.

The Company is not responsible for any infringement or invasion of the right of privacy of any person or persons, caused, or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of the 911 service features and the equipment associated therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing the 911 service.

9.7 KENTUCKY RELAY SERVICE

9.7.1 General

The Company will provide access to a telephone relay center for the Kentucky Relay Service. The service permits telephone communications between hearing and/or speech impaired individuals who must use a Telecommunications Device for the Deaf (TDD) or a Teletypewriter (TTY) and individuals with normal hearing and speech. The Relay Service can be reached by dialing a toll-free number. Specific toll-free numbers have been designated for both impaired and non-impaired customers to use.

9.7.2 Regulations

- a. Only intrastate calls can be completed using the Kentucky Relay Service under the terms and conditions of this tariff.
- b. Charges for calls placed through the Relay Service will be billed as if direct distance dialed (DDD) from the point of origination to the point of termination. The actual routing of the call does not affect billing.
- c. Calls through the Relay Service may be billed to a third number only if that number is within the State of Kentucky. Calls may also be billed to calling cards issued by the Company or other carriers who may choose to participate in this service.
- d. The following calls may not be placed through the Relay Service:
 1. calls to informational recordings and group bridging service;
 2. calls to time or weather recorded messages;
 3. station sent paid calls from coin telephones; and
 4. operator-handled conference service and other teleconference calls.

Section 9 – SPECIAL SERVICES AND PROGRAMS (Cont'd)

9.8 TELECOMMUNICATIONS SERVICE PRIORITY PROGRAM

[N]

9.8.1 General

- A. The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede tariff language contained herein.

- B. The TSP program has two components, restoration and provisioning.
1. A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
 2. A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

Section 9 – SPECIAL SERVICES AND PROGRAMS (Cont'd)

9.8 TELECOMMUNICATIONS SERVICE PRIORITY PROGRAM (Cont'd)

[N]

9.8.2 TSP Request Process

A. Restoration

To request a TSP restoration priority assignment, a prospective TSP user must:

1. Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.
 - a) National Security Leadership
 - b) National Security Posture and U.S. Population Attack Warning
 - c) Public Health, Safety, and Maintenance of Law and Order
 - d) Public Welfare and Maintenance of National Economic Posture
2. Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.
3. Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
4. For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
5. Submit the SF 315 to the OPT.
6. Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

Section 9 – SPECIAL SERVICES AND PROGRAMS (Cont'd)

9.8 TELECOMMUNICATIONS SERVICE PRIORITY PROGRAM (Cont'd)

[N]

9.8.2 TSP Request Process (Cont'd)

B. Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2a. above for restoration priority assignment except for the following differences. The user should:

1. Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 7.8.2 A (1) above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.
2. Verify that the Company cannot meet the service due date without a TSP assignment.
3. Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

9.8.3 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A. Identify telecommunications services requiring priority.
- B. Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- C. Accept TSP services by the service due dates.
- D. Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.

Section 9 – SPECIAL SERVICES AND PROGRAMS (Cont'd)

9.8 TELECOMMUNICATIONS SERVICE PRIORITY PROGRAM (Cont'd)

[N]

9.8.3 Responsibilities of the End-User (Cont'd)

- E. Pay the Company any authorized costs associated with priority services.
- F. Report to the Company any failed or unusable services with priority levels.
- G. Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H. Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

9.8.4 Responsibilities of the Company

The company will perform the following:

- A. Provide TSP service only after receipt of a TSP authorization code.
- B. Revoke TSP services at the direction of the end-user or OPT.
- C. Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D. Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- E. Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F. Confirm completion of TSP service order activity to the OPT.
- G. Participate in reconciliation of TSP information at the request of the OPT.
- H. Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.
- I. Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.

Section 9 – SPECIAL SERVICES AND PROGRAMS (Cont'd)

9.8 TELECOMMUNICATIONS SERVICE PRIORITY PROGRAM (Cont'd)

[N]

9.8.4 Responsibilities of the Company (Cont'd)

- J. Assist in ensuring that priority level assignments of NS/EP services are accurately identified "end-to-end" by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- K. Disclose content of the NS/EP TSP database only as may be required by law.
- L. Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.

9.8.5 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

Section 10 – SPECIAL ARRANGEMENTS

10.1 SPECIAL CONSTRUCTION

10.1.1 Basis for Charges

Basis for Charges where the Company furnishes a facility or service for which a rate or charge is not specified in the Company's tariffs, charges will be based on the costs incurred by the Company (including return) and may include:

- a. nonrecurring charges;
- b. recurring charges;
- c. termination liabilities; or
- d. combinations of a., b., and c.

10.1.2 Basis for Cost Computation

The costs referred to in 10.1.1 preceding may include one or more of the following items to the extent they are applicable:

- a. Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - (1) equipment and materials provided or used;
 - (2) engineering, labor, and supervision;
 - (3) transportation; and
 - (4) rights of way and/or any required easements.
- b. Cost of maintenance.
- c. Depreciation on the estimated cost installed of any facilities provided, based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.

10.1 SPECIAL CONSTRUCTION (Cont'd)

10.1.2 Basis for Cost Computation (Cont'd)

- d. Administration, taxes, and uncollectible revenue on the basis of reasonable average cost for these items.
- e. License preparation, processing, and related fees.
- f. Tariff preparation, processing and related fees.
- g. Any other identifiable costs related to the facilities provided; or
- h. An amount for return and contingencies.

10.1.3 Termination Liability

To the extent that there is no other requirement for use by the Company, a termination liability may apply for facilities specially constructed at the request of a customer.

- a. The period on which the termination liability is based is the estimated service life of the facilities provided.
- b. The amount of the maximum termination liability is equal to the estimated amounts (including return) for:

10.1 SPECIAL CONSTRUCTION (Cont'd)

10.1.3 Termination Liability (Cont'd)

b. (Cont'd)

- (1) Costs to install the facilities to be provided including estimated costs for the rearrangements of existing facilities. These costs include:
 - (a) equipment and materials provided or used;
 - (b) engineering, labor, and supervision;
 - (c) transportation; and
 - (d) rights of way and/or any required easements;
- (2) license preparation, processing, and related fees;
- (3) tariff preparation, processing and related fees;
- (4) cost of removal and restoration, where appropriate; and
- (5) any other identifiable costs related to the specially constructed or rearranged facilities.

- c. The termination liability method for calculating the unpaid balance of a term obligation is obtained by multiplying the sum of the amounts determined as set forth in Section 10.1.3.b. preceding by a factor related to the unexpired period of liability and the discount rate for return and contingencies. The amount determined in Section 10.1.3.b. preceding shall be adjusted to reflect the redetermined estimated net salvage, including any reuse of the facilities provided. This amount shall be adjusted to reflect applicable taxes.

By: Deputy General Counsel
121 Champion Way
Canonsburg, Pennsylvania 15317

Section 10 – SPECIAL ARRANGEMENTS (Cont'd)**10.2 NON-ROUTINE INSTALLATION AND/OR MAINTENANCE**

At the customer's request, installation and/or maintenance may be performed outside the Company's regular business hours, or (in the Company's sole discretion and subject to any conditions it may impose) in hazardous locations. In such cases, charges based on the cost of labor, material, and other costs incurred by or charged to the Company will apply. If installation is started during regular business hours but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays, and/or night hours, additional charges may apply.

10.3 INDIVIDUAL CASE BASIS (ICB) ARRANGEMENTS

Rates for ICB arrangements will be developed on a case-by-case basis in response to a bona fide request from a customer or prospective customer for service which vary from tariffed arrangements. Rates quoted in response to such requests may be different for tariffed service than those specified for such service in this Tariff. ICB rates will be offered to customers in writing and will be made available to similarly situated customers.

10.4 MUTUAL COMPENSATION

Mutual compensation arrangements address the transport and termination of Local Traffic between local exchange providers serving the same local calling area. Such payments compensate a local exchange provider for the costs of terminating local calls placed by one provider's customer to a recipient served by a different local provider. For any carrier for which no interconnection or traffic transfer agreement exists, the mutual compensation rates will be as described in Section 13. The mutual compensation rates set forth in Section 13 are not applicable to Switched Exchange Access Service. All Switched Exchange Access Service and all Toll Traffic shall continue to be governed by the terms and conditions of the applicable federal and state tariffs.

Section 11 – DIRECTORY

11.1 SERVICE AREAS/EXCHANGED/LOCAL CALLING AREAS

11.1.1 Main Listings

- a. The Company contracts with an outside provider, which may be the Incumbent Local Exchange Carrier, for directory listings. All references to the directory of the Company will mean the directory published by the outside provider.
- b. The term "listing" refers to the information in light face type in the alphabetical directory and the Directory Assistance Records of the Company.
- c. Listings provided without charge are as follows:
 1. One listing for each individual line. Where individual lines are grouped for incoming service, only one listing will be provided for each such group.
 2. One listing for each PBX or interconnecting system.
- d. The name listed in the directory has no bearing on who is responsible for payment of the account associated with the number being listed.

Section 11 – DIRECTORY (Cont'd)

11.1 SERVICE AREAS/EXCHANGED/LOCAL CALLING AREAS (Cont'd)

11.1.2 Composition of Listings

- a. Listings are limited to information essential to the identification of the listed party.
- b. Addresses
 - 1. Each listing normally includes the number and street name location where the telephone service is furnished. The name of a building may be shown in case of buildings commonly known by name.
 - 2. Upon Customer request, the address may be omitted, a post office box number may be shown, or a partial address (omitting number) may be shown. In directories where locality names are normally part of the address, a partial address consisting of the name of a locality may be shown.
- c. The Customer may request a main listing different from the billing name and address of the service. All such requests will be honored to the extent possible under the terms of the contract described in 11.1.1.a above.

11.1.3 Types of Listings

In addition to the main listing as described above, the following options are available for an additional charge.

Section 11 – DIRECTORY (Cont'd)

11.1 SERVICE AREAS/EXCHANGED/LOCAL CALLING AREAS (Cont'd)

11.1.3 Types of Listings (Cont'd)

a. Indented Listings

An indented listing is indented under a standard listing or under a caption, and may not include more than a designation, address, and telephone number. A caption consists of a name, and may include a designation, but not a telephone number. An address may be included only if all of the services listed under the caption are located at the same address. When the same designation is appropriate for two or more indented listings, it may be shown as a sub-caption. Indented listings are permissible when a Customer is entitled to two or more listings of the same name with different addresses or different telephone numbers.

b. Duplicate Listings

Any listing may be duplicated in a different directory (where offered) or under a separate geographical heading in the same directory. Such listing may be duplicated in indented form.

c. Reference Listing

A Customer with a listing in a different geographic heading may have an indented listing in reference form ("See . . .") in lieu of a duplicate listing.

d. Cross Reference Listing

A Customer may have a related listing in the same alphabetic group listing when required for identification of the listed party and not designated for advertising purposes.

11.1 SERVICE AREAS/EXCHANGED/LOCAL CALLING AREAS (Cont'd)

11.1.3 Types of Listings (Cont'd)

e. Alternate Telephone Number Listings

Any listed party who has made arrangements for receiving calls at a different telephone number during an absence or at night may have the alternate numbers listed in the directory. Such listings may be furnished as an indented listing or as a sub-caption.

f. Semi-Private Listing

At the request of the Customer, the telephone number is omitted from the Company's alphabetical directory and designated as a "non listed" telephone number and the telephone number is included in the Directory Assistance records available to the general public. In addition, the telephone number is displayed for 911 and E911 emergency service and provided when a law enforcement agency requests it in writing.

g. Foreign Directory Listing

A listing in a directory outside of the subscriber's local exchange.

Section 11 – DIRECTORY (Cont'd)**11.1 SERVICE AREAS/EXCHANGED/LOCAL CALLING AREAS (Cont'd)****11.1.4 Non-Published Service****a. General**

The telephone numbers of non-published service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public. However, where a government agency subscribes to Universal Emergency Telephone Number Service (911) or Enhanced Universal Emergency Telephone Service (E911), the telephone number, name, and address of a Customer with non-published service will be displayed when the Customer dials 911 and is connected to a Public Safety Answering Point (PSAP) for dispatch of emergency service. In addition, the Company will provide a Customer's non-published number when a law enforcement agency requests it in writing.

b. Regulations

1. Except as otherwise provided in this paragraph, incoming calls to non-published service will be completed only when the calling party places the call by number. In claims of emergencies involving life and death, the operator will call the non-published number and request permission to make an immediate connection to the calling party. If the connection is refused, the calling party will be advised.
2. The acceptance by the Company of the Customer's request to refrain from publishing his or her telephone number in the Directory does not create any relationship or obligation, direct or indirect, to any person other than the Customer.

Canonsburg, Pennsylvania 15317

Section 11 – DIRECTORY (Cont'd)

11.3 DIRECTORY INFORMATION REQUESTS

Requests for directory information are provided by dialing Directory Assistance. (See Section 5.7.) Information will not be issued by the Company outside of normal directory assistance procedures unless the request is made by an emergency agency. Directory information will only be provided to emergency agencies after a formal request is presented to the Company in writing. The requesting agency must agree to pay for the costs incurred by the Company in providing the information, and must certify that the information will be used only for the purpose of providing its services to the community.

11.4 LIABILITY OF THE COMPANY FOR ERRORS

11.4.1 General

In the absence of gross negligence or willful misconduct, and except for the allowances stated elsewhere in this Tariff, no liability for any damage of any nature whatsoever arising from errors in directory listings or errors in listings obtainable from the Directory Assistance operator, including errors in reporting thereof, shall attach to the Company. A listing is considered in error only when it shows the Customer on the wrong street, or in the wrong community. The Customer must notify the Company of an error.

11.4.2 Allowance for Errors

An allowance for errors in published directory listings or for errors in listings obtainable from the Directory Assistance operator shall be given as follows:

Canonsburg, Pennsylvania 15317

Section 11 – DIRECTORY (Cont'd)

11.4 LIABILITY OF THE COMPANY FOR ERRORS (Cont'd)

11.4.2 Allowance for Errors (Cont'd)

a. Free Listings

For Free or non-charge published directory listings, credit shall be given at the rate of two times the monthly rate for an additional or charge listing affected, for each month of the life of the directory or the charge period during which the error occurs. The Company may issue the credit in a lump sum if it chooses to do so.

b. Charge Listings

For each additional or charge published directory listing, credit shall be given at the monthly tariff rate for each individual line affected, for each month of the life of the directory or the charge period during which the error occurs.

c. Operator Records

For free or charge listings obtainable from records used by the Directory Assistance operator, upon notification to the Company of the error in such records by the Customer, the Company shall be allowed a period of three business days to make the correction. If the correction is not made in that time for reasons within the control of the Company, credit shall be given at the rate of two-thirtieths (2/30) of the basic monthly rate for the line or lines in question for each day thereafter that the records remain uncorrected.

The total amount of any credit shall not exceed, on a monthly basis, the total of the charges for each listing plus the basis monthly rate for the line(s) in question. No allowance will be provided for errors caused by other carriers or operator service providers.

Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. is continuing to provide. These rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

*Facilities are not, at present, capable of supporting bandwidth at these speeds in this configuration.

[X]

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services are permitted. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

[x] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelphia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

[X] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing customers may remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

Section 13 - RATES & CHARGES (Cont'd)

Section 8 - INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.1 Per Call Service Charges

The following service charges apply to interLATA toll calls for which live or automated operator assistance is provided for call completion and/or billing.

| | <u>Per Call Charge</u> |
|-------------------------------|------------------------|
| Operator Station to Station | \$2.50 |
| Person to Person | \$2.50 |
| 3rd Number Billing | \$2.50 |
| Collect Calls | \$2.50 |
| Busy Line Verification | \$6.50 per occurrence |
| Emergency Interrupt | \$13.00 per occurrence |
| All other Operator Assistance | \$2.50 |

8.2.2 INTERLATA CALL CHARGES

| | | | |
|----|--------------------------------------|--------|-----|
| A. | Basic Long Distance - Switched | | |
| | <u>Legacy Rate</u> | | |
| | Per Minute Usage Rate | \$0.10 | [X] |
| | <u>TelCove Rates</u> | | |
| | Per Minute Usage Rate | \$0.06 | |
| B. | Long Distance - Stand Alone Switched | | |
| | Per Minute Usage Rate | N/A | |
| C. | Dedicated Long Distance | | |
| | ICB only | | |

[X] Service offerings listed herein are classified as "grandfathered". Grandfathered services are furnished subject to all the rules and regulations of the tariff the same as would be applicable if the service offerings were not grandfathered. No new installations for these services will be made. Existing services will remain with the service unless the company provides thirty (30) days written notice that the service will be discontinued. Grandfathered services with no subscribers will be removed from the tariff with prior Commission Approval. Adelpia Business Solutions of Kentucky, Inc. had grandfathered these rates to its end user which TelCove of Kentucky, Inc. will continue to serve. As these rates and services are not available to new customers, TelCove of Kentucky, Inc. must reflect these as grandfathered.

 Section 13A - RATES & CHARGES (Cont'd)

Section 8 - INTRALATA / INTERLATA TOLL USAGE AND MILEAGE CHARGES (Cont'd)

8.2.3 INTERLATA CALL CHARGES (Cont'd)

Take or pay Commitments (Switched Only)

A customer has the option of committing to a monthly level of \$1,000, \$3,000, or \$5,000 dollars. One-Year, Two-Year, and Three-Year service term packages are available. When the customer commits to paying at one of the monthly levels described above, they will receive a discounted rate for interLATA call charges. The Customer must, at a minimum, sign a one-year commitment agreement to qualify for the discount rate. The discounted rate is in effect immediately upon execution of the commitment agreement. The customer does not need to reach the committed level first in order to receive the discounted rate. If the Customer terminates service prior to the end of the term, in part or in whole, then termination charges, as set forth in Section 7.2.5 of this tariff, would apply.

| Monthly Commitment Level | Rate |
|--------------------------|---------|
| No Commitment | \$0.060 |
| \$1,000 Level | \$0.055 |
| \$3,000 Level | \$0.050 |
| \$5,000 Level | N/A |
